ABSTRACT

Affirmative action is an employer's total effort to ensure equal employment opportunities. This includes guarantees that minorities and women are employed at every organization level to which their abilities and career objectives entitle them to aspire. Prepared by members of the Personnel Management Association of Aztlan, this handbook is designed to communicate useful information about affirmative action programs (AAP) to employees, prospective employees, employers, educational institutions, governmental compliance agencies, local training centers, and communities. Numerous affirmative action programs and related legislation, key elements of Revised Order No. 4, effective AAP forms, and parts of successful affirmative action programs are given. The handbook is divided into 6 sections: (1) What Affirmative Action Means to Employers; (2) Government Compliance Agencies Are There to Help; (3) High Schools, Colleges, and Universities Are Available; (4) Manpower and Training Sources Are Essential; (5) Chicano Government Representatives Are Increasing; and (6) National Chicano Organizations Are Involved. A directory of governmental-industrial-educational-community agencies and representatives is also included. (Author/NQ)

## Foreword

The purpose of this handbook is to promote the full utilization of Chicano talents and skills in every area and stratum of society. If this goal is to be realized, the Chicano community must assume the lead. Chicanos must become involved in politics, whatever the level. They must take advantage of the comprehensive and exceptional educational opportunities available in schools, colleges, and universities throughout the Southwest. They should join organizations working to improve the condition of Chicanos and see that equal opportunity and affirmative action representatives--governmental or otherwise--are invited to meetings at which the membership is informed of legislation, regulations, and opportunities that will help the Chicano advance in his job, his education, or his business.

A select committee of PMAA personnel executives researched the material in this book. While every effort was made to include current data, some obsolescence is inevitable. For this reason, the book will be periodically revised to update the information and to incorporate changes resulting from constructive comments and criticism.

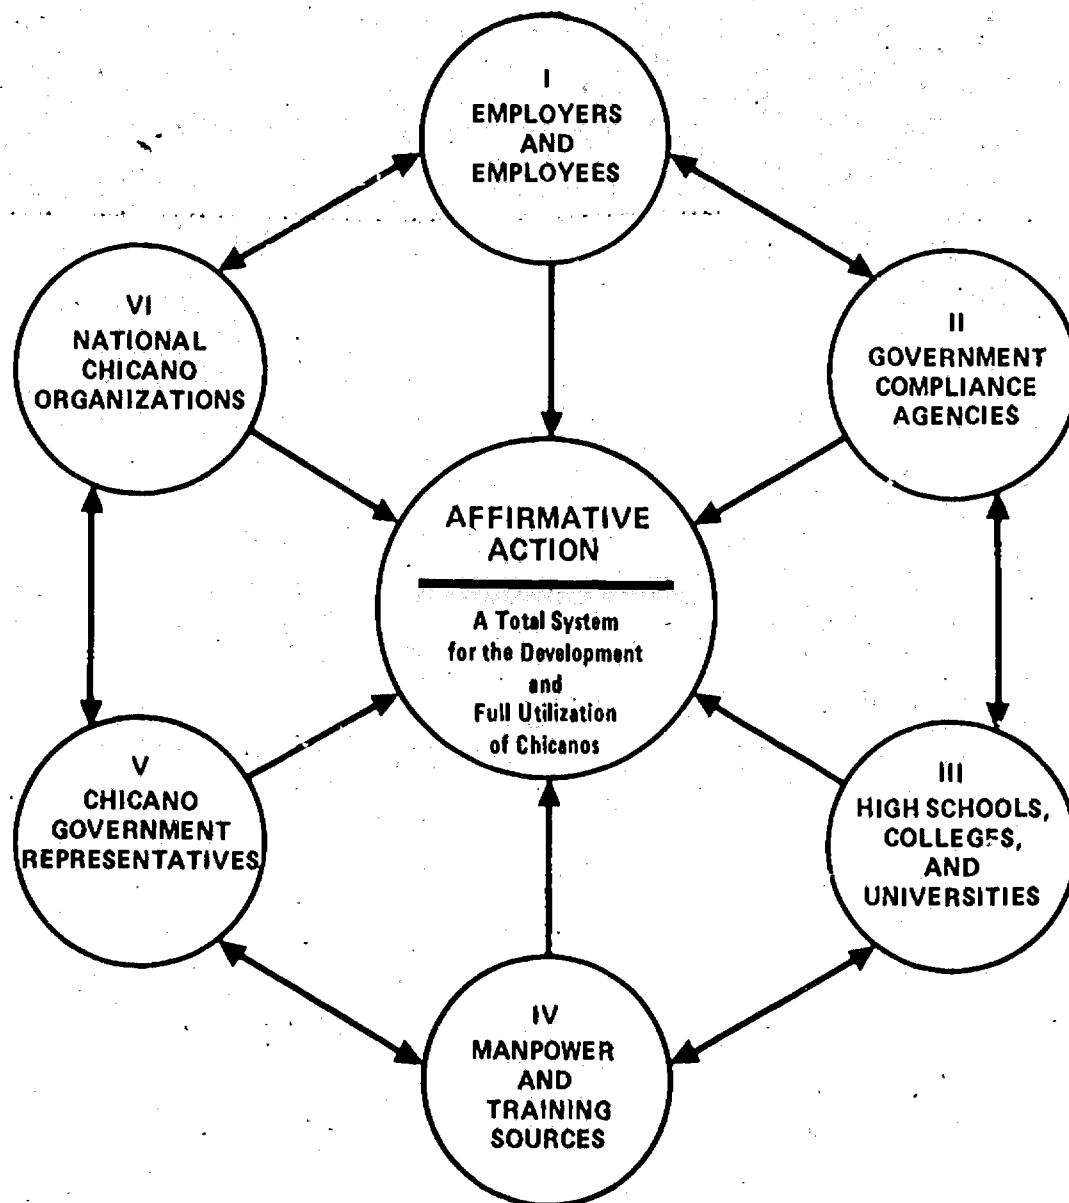

PMAA is proud of this handbook. Use it; share it; succeed with it.

## Introduction

This handbook was prepared by members of the Personnel Management Association of Aztlan, a group of professional Chicanos who have achieved recognition in the fields of personnel management and industrial relations, and whose success was realized in an environment far less liberal or progressive than today's. It is their desire to make it easier for all people of Mexican descent to avail themselves of career opportunities in every field of endeavor. The handbook, therefore, is designed to communicate useful information to employees and prospective employees as well as to employers, educational institutions, governmental compliance agencies, local training centers, and the community at large. It is hoped that each group using the handbook will realize its efforts in the Chicano cause will inevitably affect the success of all other groups.

The information herein will become increasingly important as governmental agencies such as the Equal Employment Opportunity Commission (EEOC), Office of Federal Contract Compliance (OFCC), and Fair Employment Practices Commission (FEPC) enforce equal employment and affirmative action laws and orders. If the Chicano wants government to be more responsive to his needs, he must make sure his voice is heard by government representatives. An employer whose contracts may depend on his equal employment posture must learn how the affirmative action program can become a result-oriented instrument that will help him best utilize his minority and women employees. The educational institution that faces the challenge of training an adequate number of minority and female graduates must learn how to meet the needs of the employer. Community training agencies must be responsive to the rapidly changing skill requirements of commerce and industry. National Chicano organizations must recognize the immediate needs of Chicano communities and redirect their priorities to serve those needs. Even the governmental compliance agencies, which have the formidable task of monitoring affirmative action plans, must realize there are millions of Chicanos who are depending on enforcement of the civil rights laws so that they can contribute their total abilities to—and receive their full share from—society.

If those rights are to be guaranteed, it is very important that we *all* understand *all* the facets of equal employment opportunity and affirmative action. Only then can the Chicano achieve equal recognition and equal opportunity. To encourage and facilitate that achievement is the overriding aim of this book.

## I What Affirmative Action Means to Employers and Employees

An employer whose contracts may depend on his equal employment posture must learn how the affirmative action program can become a result-oriented instrument that will help him best utilize his minority and women employees.

## GUIDELINES FOR AFFIRMATIVE ACTION PROGRAMS

Affirmative action is an employer's total effort to ensure equal employment opportunities for all employees. This includes all the actions required to guarantee that minorities and women are employed at every level of the organization to which their abilities and career objectives entitle them to aspire. These affirmative actions are required by federal law: Revised Order No. 4 of Title 41, Public Contracts and Property Management. The following excerpts are from that law:

Section 60-1.40 of this Chapter, Affirmative Action Compliance Programs, requires that within 120 days from the commencement of a contract each prime contractor or subcontractor with 50 or more employees and a contract of \$50,000 or more develop a written affirmative action compliance program for each of its establishments . . .

An acceptable affirmative action program . . . must be directed to correct the (employment) deficiencies and thus to increase materially the utilization of minorities and women at all levels and in all segments of the work force where deficiencies exist.

Recent employment investigations and compliance reviews of certain educational institutions and municipal governments by such agencies as the U.S. Department of Justice have prompted employers to develop and implement effective affirmative action programs (AAP's). Besides being backed by law, these programs are morally right and good business. The PMAA Handbook Committee strongly urges each employer, whether private or public, to use the information on the pages that follow in developing, implementing, and maintaining an affirmative action program.

Information in the handbook, especially that in this section, was developed with the following basic objectives in mind:

- The information will be understood and used by affected persons who are not familiar with affirmative action legislation or programs, or whose knowledge of them is limited.
- The information will be further developed by persons who are familiar with the goals of affirmative action and by employers who have implemented or will implement affirmative action programs.
- The information will help society in general and communities in particular to recognize that minorities and women have been denied equal employment opportunities for centuries, and the direct and indirect effects of this discrimination will require extraordinary dedication, innovations, and result-oriented efforts as well as good faith if the problem is to be resolved without undue delay.

The Handbook Committee researched extensively numerous affirmative action programs and related legislation in preparing this book. The committee concluded the federal government's Revised Order No. 4 (based on Executive Order 11246 and amended by 11375) and employers' efforts to comply with it constitute a sound foundation for this important section. Consequently, most of the section is devoted to highlighting key elements of Revised Order No. 4, effective AAP forms, and parts of successful affirmative action programs.

## Contents of Revised Order No. 4

## Meeting the Requirements of Revised Order No. 4

The following paragraphs describe the most important and relevant sections and passages of the order. Subparts A (General) and D (Miscellaneous) are omitted entirely in the interest of brevity and because they deal primarily with administrative matters and with subjects previously mentioned. The questions in parentheses following subpart titles are the Handbook Committee's.

### Subpart B - Required Contents of Affirmative Action Programs

#### 60-2.10 Purpose of Affirmative Action Program

Commitment by employer to apply every good-faith effort in establishing specific and result-oriented procedures, including:

- Analyses of organizational units and job classifications deficient in the utilization of minorities and women.
- Goals and timetables reflecting good-faith efforts to correct the deficiencies.

The basic objective of an employer's AAP should be the utilization of minorities and women in all job classifications and in all organizational units in numbers that approximate the minority population ratio and ethnic mix of the area in which the company is located.

#### 60-2.11 Required Utilization Analysis (*What are the employer's present minority and female ratios?*)

Recommended procedure to determine if underutilization exists in a company:

- Compile and document employment data for the total company by ethnic, sex, and occupational category/job classification (see Sample Form 1).
- Compile and document employment data for each organizational unit (e.g., engineering, manufacturing, finance, etc.) by ethnic, sex, and job classification (just change the functional title on Sample Form 1).

- Analyze employment data to determine if minorities or women are being underutilized<sup>1</sup> in any job classification. The following main factors should be evaluated, by occupational category/job classification, and dynamic and aggressive methods should be employed to determine if underutilization exists and, if it does, to correct it:

#### **Officials and Managers**

- The minority population of the labor area surrounding the facility (i)
- The availability of promotable and transferable minorities and women within the contractor's organization (vi)
- The degree of training which the contractor is reasonably able to undertake as a means of making all job classifications available to minorities and women (viii) – considering only the required, not nice-to-have, on-the-job training and formal class(es) for qualifying personnel for the new job classification.

#### **Professionals (Middle and Upper Levels)**

- Same as above (i)
- Same as above (vi)
- Same as above (viii)

#### **Professionals (Entry Level)**

- Same as above (i)
- Same as above (vi)
- Same as above (viii)

The availability of minorities and women having requisite skills in an area in which the contractor can reasonably recruit: e.g., universities, two- and four-year colleges (v)

#### **Technicians, Sales Workers, Office and Clerical, Craftsmen (Skilled), Operatives (Semiskilled), and Service Workers**

- Same as above (i)
- Same as above (vi)
- The existence of training institutions capable of training persons in the requisite skills: e.g., two-year colleges; trade, skill, and occupational institutions (vii)
- Same as above (viii)

#### **Laborers (Unskilled)**

- Same as above (i)

### **60-2.23 Identification of Problem Areas by Organizational Unit and Job Classification**

(This section of Subpart C is placed here because completing the analyses of the employment data and other factors of Section 60-2.11 leads to the identification process of this section and, in turn, to Section 60-2.12, Establishment of Goals and Timetables.)

After the analyses of Section 60-2.11 are completed, further in-depth analyses of at least the following items should be considered in identifying, explaining, and planning corrective actions for deficiencies if underutilization exists in organizational units and job classifications:

- Statistics for last year.

Total employment one year before development of the AAP  
Hires  
Promotions  
Participants in training programs  
Number of applicants/resumes  
Terminations

See Sample Form 2

- Recruitment methods.
- Selection and testing process (e.g., job classification descriptions and requirements that do not reflect actual job duties).
- Formal techniques established for evaluating effectiveness of AAP.
- Minority interview procedure.
- Nonsupport of company policy by managers, supervisors, or employees.

<sup>1</sup> Underutilization means having fewer minority or women personnel in a job classification than would be expected by their availability.

**60-2.12 Establishment of Goals and Timetables<sup>1</sup>** (*What should employer's minority and female ratios be?*)

After all analyses are completed, deficiencies are determined, and corrective actions are planned, goals and timetables must be established. At least the following items are to be considered in developing goals and timetables for all organizational units and job classifications (see Sample Forms 3, 4, and 5):

- Goals should be significant, measurable, and attainable.
- Goals should be attainable in view of deficiencies and the entire AAP.
- In determining goals and timetables, targets should be established that good-faith effort can be expected to meet.
- All levels of management must be involved.
- In establishing timetables, the following changes in the work force must be considered:
  - Anticipated expansion
  - Anticipated contraction
  - Anticipated turnover
- Both percentage and numerical goals should be established.
- Analyses and supporting data of the goals and timetables must be part of AAP.
- The main factors by occupational category/job classification listed in Section 60-2.11 must be evaluated to determine if goals will be met by promotions or hires (see Sample Forms 3, 4, and 5).

**Subpart C – Methods of Implementing the Requirements of Subpart B** (*How can the employer improve his minority and female ratios?*)

**60-2.20 Development or Reaffirmation of the Equal Employment Opportunity Policy**

The main intent of this section is to ensure that the chief executive officer of a company or facility will express an affirmative action policy statement that accomplishes the following (see Example 1):

- Reflects his positive attitude toward affirmative action programs.
- Assigns overall responsibility for the coordination of AAP.
- Includes a reporting and monitoring procedure for critical subjects such as:

Recruiting	Promotions	Layoffs
Hiring	Raises	Returns from layoffs
Training	Transfers	Counseling

**6-2.21 Dissemination of the Policy**

This section provides for the internal and external communication of the AAP policy, both orally and in writing.

**Internal Procedure**

- Include in policy manual.
- Publicize in company newspaper, magazine, annual report, or other media.
- Conduct special meetings with all levels of management to explain AAP policy and individual responsibility for effectively implementing the program (see Example 2).
- Schedule special meetings with all employees to discuss AAP policy and explain individual employee responsibilities.
- Discuss AAP thoroughly in employee orientation and management training programs.
- Meet with union officials to inform them of AAP policy and to request their cooperation.
- Publicize in company media affirmative action and equal opportunity programs, progress reports, and the promotions of minority and women employees.
- Post AAP policy on company bulletin boards.
- Communicate to minority and women employees the existence of the AAP and make available elements of the program that will enable them to take advantage of its benefits (see Example 3).
- Conduct "rap sessions" between management and minority and women employees.

**External Procedure**

- Inform all recruiting sources orally and in writing of AAP policy, stipulating that these sources actively recruit and refer minorities and women for all positions listed—e.g., sources such as Service

<sup>1</sup>The employer determines goals and a timetable for correcting the underutilization of minorities and women as quickly as can be expected. If the employer can show he has made good-faith efforts, his failure to meet the goals and schedule would be excused. (This is not a quota system. In the application of such a system, a fixed number of minority or women employees is imposed on the employer. He is obligated to meet that number, and his failure to do so cannot be justified on any grounds.)

<sup>1</sup> Separating the goals into promotions and hires is necessary in concentrating on how to meet the goals. For example, in meeting the goals for officials and managers and middle and upper professionals, most employers fill these positions from within. This applies to the analyses and factors noted in Section 60-2.11 for these occupational categories.

### Example 1. Equal Employment Opportunity Policy Statement

July 5, 1973

To: All Employees

Subject: Equal Employment Opportunity

The ABC Division of the XYZ Company fully supports the national policy of equal employment opportunity. I personally endorse that policy and have directed the establishment and maintenance of an Affirmative Action Program designed to ensure significant results. It is our goal to recruit applicants from all minority groups that reside within commuting distance of our plant and to achieve at an early date a work-force mixture in all job classifications and all organizational units that reasonably approximates the minority population ratio and composition of this geographic area.

Our policy embraces equality of opportunity for all minority and women employees with respect to all employment matters: training, promotion, benefits, transfer, layoff, recall, and social and recreational programs. Execution of this policy will require vigorous recruitment efforts to identify and attract minority and women applicants who meet our qualification standards. We will also maintain a file of their applications so that we can consider them for employment as openings develop.

Mr. John Doe, Personnel Manager, will coordinate with functional departments the day-to-day operations of our Affirmative Action Program. He also is responsible for the following:

- . Preparation and submittal to me by the fifth working day of each month statistics involving outside hires, promotions, training assignments, and other personnel actions taken during the month.
- . Development of quarterly evaluation and appraisal reports and presentation of these reports to the ABC Management Council at the first council meeting following the close of the quarter.

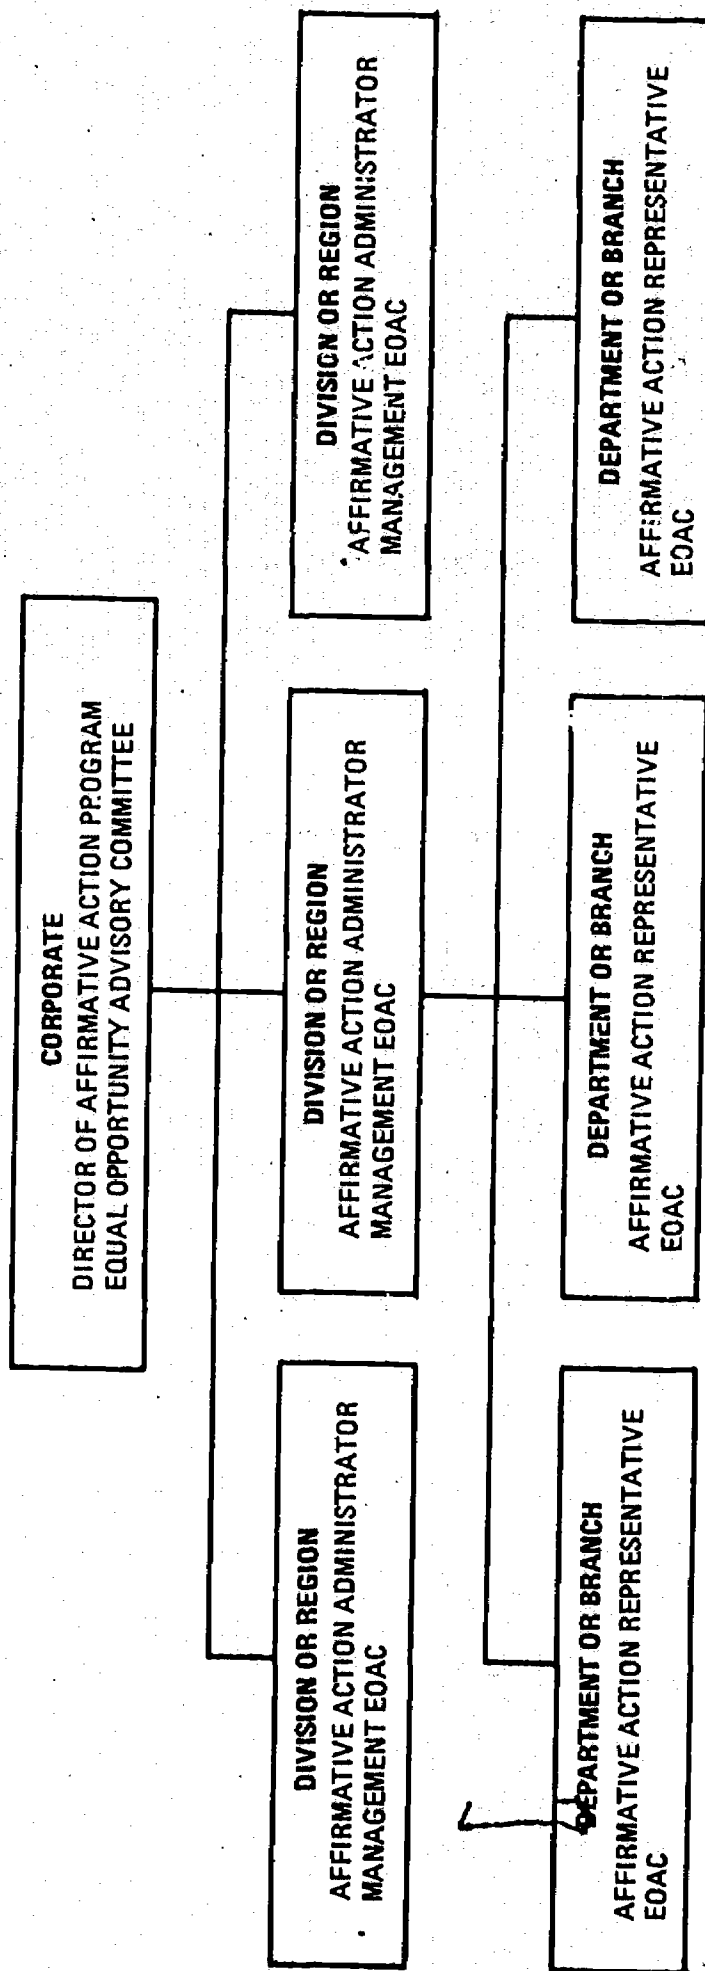

Any employee who has a question regarding our equal opportunity/affirmative action policy or its implementation should contact Mr. Doe. And my door is open to anyone who wishes to discuss the matter further with me.

The full cooperation of all employees is expected.

John J. Smith  
President

Employment Redevelopment (SER), Mexican American Opportunity Foundation (MAOF), state employment offices, universities, two- and four-year colleges, high schools, and training centers with high minority enrollments (see Example 4).

- Incorporate the equal opportunity clause in all purchase orders, leases, contracts, etc.
- Communicate to prospective employees the existence of the company's AAP and make available the elements from which they could benefit.
- Send written notification of AAP policy to all subcontractors, vendors, and suppliers and request they take appropriate action.

#### 60-2.22 Responsibility for Implementation

An executive should be appointed as director or manager of the company's affirmative action program and given the necessary top-management support and staffing to carry out the following responsibilities (see Example 5).

- Developing policy statements, the AAP, and internal and external communication techniques.
- Assisting in the identification of problem areas.
- Assisting line management in resolving problems.
- Designing and implementing audit and reporting systems that will (1) measure effectiveness of the AAP, (2) indicate need for remedial action, and (3) determine the success with which the goals have been attained.
- Serving as liaison between the company and enforcement agencies.
- Serving as liaison between the company and minority organizations, women organizations, and community action groups concerned with employment opportunities for minorities and women.
- Keeping management informed of latest developments in the entire equal opportunity area.

Line management responsibilities should include, but not be limited to, the following:

- Identification of problem areas and establishment of local goals.
- Active involvement with local minority organizations, women organizations, and community service programs and action groups.
- Periodic audit of training programs and hiring and promotion patterns to remove impediments to the attainment of AAP goals.

- Review of all employees' qualifications to ensure minorities and women have full opportunities for transfer or promotion.
- Evaluation of supervisors' work performance on the basis of their equal employment opportunity efforts and results as well as other criteria.
- Prevention of harassment of employees placed through affirmative action efforts.

#### 60-2.24 Development and Execution of Programs

This section addresses action-oriented programs designed to eliminate the problems identified in Sections 60-2.11 and 60-2.23 and to meet the goals established in Section 60-2.12. Critical items that require special emphasis in establishing corrective action-oriented programs include the following:

- Detailed analyses of job classification descriptions and requirements should be conducted to ensure they reflect actual job classification responsibilities. Academic, experience, and skill requirements should be given special attention. If the requirements screen out a disproportionate number of minorities or women, such requirements should be professionally validated to job performance.
- Approved job classification descriptions and requirements should be made available to all concerned management and to recruiting sources (refer to Career Fields Guide, Space Division, Rockwell International, Pub 2547-J, Second Edition).
- Employee selection process should be evaluated to ensure freedom from bias:

    All personnel involved in the selection process should be carefully selected and trained.

    Requirements of the OFCC testing guidelines pertaining to the validation of employee tests and other selection procedures must be adhered to.

    The employer must avoid the use of any technique—test or otherwise—that may be improperly applied to discriminate against minorities or women.

- Techniques, such as the following, should be developed to improve recruiting results and increase the flow of minority or women applicants:

    Close working relationships with manpower development and training agencies (e.g., SER, MAOF),

## Example 4. Community Involvement Programs

### ASSIST IN THE DEVELOPMENT AND IMPROVEMENT OF

#### Manpower Resource Pools

- Develop, implement, and maintain an employee referral and feedback system; technical and administrative assistance programs for minority manpower development and training agencies (e.g., SER and MAOF).
- Include as recipients of employees' charitable (payroll) contributions manpower development and training agencies (e.g., SER and MAOF) and community organizations (e.g., Mexican American Legal Defense and Educational Fund, LULAC, and GI Forum).
- Serve on board of directors of minority manpower development and training agencies.
- Operate occupational centers.
- Sponsor employers' conferences.
- Develop job data banks.
- Provide cash donations or other financial support to training agencies or other manpower sources for fund-raising events.
- Use Chicano communication media (e.g., La Luz) to disseminate AA information.

#### Sound Economic Base

- Identify, document (provide directories), and promote minority businessmen as subcontractors.
- Donate or lend office and training equipment and materials to manpower agencies and community centers.
- Contract with the Department of Labor in the employment and development of disadvantaged persons (National Alliance of Businessmen).
- Donate cash or other financial support to Chicano businessmen for fund-raising events.
- Lend employees to assist Chicano businessmen.
- Sponsor or support special community events such as Cinco de Mayo, 16 de Septiembre, etc.

#### Educational Systems

- Lend employees as instructors or advisers to educational institutions.
- Establish in-plant training courses for high-school students.
- Provide tutors for elementary, high-school, and college tutoring programs.
- Conduct student tours of industries and colleges.

community organizations (e.g., LULAC, GI Forum), educational institutions with high minority enrollments, state employment offices, and community leaders.

Recruiting programs at all educational institutions should incorporate special efforts to reach minorities and women: e.g., work closely with minority placement specialists in the Placement Office, student organizations (such as Chicano Business Students' Association), Movimiento Estudiantil Chicano de Aztlan (MECHA), minority-oriented departments (such as Educational Opportunities Program (EOP), Chicano Studies).

Formal employment briefings should be given representatives of above recruiting sources by minority or women employees. Formal arrangements should be made for referral of applicants, follow-up sources, and feedback on disposition of applicants.

A special effort should be made to include minorities and women on the personnel or employment services staff.

Minority and women employees should be made available for participation in youth motivation programs and related activities in their communities.

A special employment program should be undertaken, if possible, with special emphasis on the use of minorities and women:

Technical and nontechnical cooperative programs with colleges and universities

Summer jobs

Motivation, training, and employment programs for the hard-core unemployed

Help-wanted advertising should be expanded to minority and women news media on a regular basis.

- To ensure that minorities and women receive equal consideration for promotion, the following suggestions are recommended:

Make certain that all the job classification descriptions and requirements of all organizational units have been validated for actual responsibilities. Neither minorities nor women should be required to possess higher qualifications than those of the lowest qualified incumbent.

Develop upward mobility cycle (see following illustration).

Make an inventory of current minority and women employees qualified for promotion (see Sample Form 6).

Develop and implement a formal program to provide on-the-job training or formal class(es) to qualify minority and women employees for promotion (see Example 6).

When apparently qualified minorities or women are available but are not selected, require supervisory personnel to explain the reasons in writing.

#### 60-2.25 Internal Audit and Reporting Systems

The top executive officer should ensure the integrity of the affirmative action program, and the methods used should include the following:

- Monitoring records pertaining to referrals, placements, transfers, promotions, and terminations at all levels (see Sample Form 2).
- Requiring scheduled formal reports from unit managers to ascertain that goals and timetables are being met.
- Reviewing report results with all levels of management.
- Advising top management of program effectiveness and making recommendations for improving unsatisfactory performance.

#### 60-2.26 Support of Action Programs

The employer should provide active support of local and national community action and service programs designed to improve the employment opportunities of minorities and women in accordance with the following criteria (see Example 4):

- Manpower resource pool (development and improvement):  
Assist community organizations (e.g., SER, MAOF) by informing them of job openings and providing technical personnel and equipment expertise.
- Sound economic base (development and improvement):  
Appoint key members of management to serve in community organizations or to assist minority businessmen.
- Educational system (improvement):  
Assist educational institutions in programs designed to enable minority and women graduates to compete in the employment market on a more equitable basis.

## UTILIZING CHICANO BUSINESSMEN

The government recognizes that equal employment opportunities for minorities are greatly aided through the utilization of minority businesses (refer to Executive Order 11625, dated October 14, 1971). To make the most equitable use of Chicano businesses, each employer should appoint a Chicano to a management position in the purchasing department, giving him an adequate staff and budget. He would have the following responsibilities and the authority to discharge them:

- To develop, implement, and maintain a system that ensures Chicano businesses are included in the company's (or division's) purchasing directory and that they receive appropriate consideration in the purchase of materials and products they sell (refer to Space Shuttle Program—Minority Business Enterprise Subcontracting Plan (December 1972), Space Division, Rockwell International).
- To provide monthly status reports to the head of the purchasing department, recommending required corrective actions.
- To monitor the activities of all functional and program departments (engineering, manufacturing, facilities, etc.) that deal with Chicano businessmen, emphasizing the following steps: seeking out qualified and qualifiable Chicano sources; providing the guidance and assistance to the latter that will permit them to compete more equitably with other businesses.

## THE BASIC RESUME

*A covering letter of one paragraph should accompany your resume. It should state only that you are interested in employment with the company and reference the attached resume.*

**Name**  
**Address**  
**Telephone**

**Date**

**Job Objective:** State briefly (several sentences) your general or specific job interests.

**Education:** List the following in chronological order: high school attended and whether you received a diploma (if you attended college, it is not necessary to mention high school); colleges attended, degree(s) held or for which you are working (with dates), and major and minor fields of study.

**Employment:** Describe your most important full-time, part-time, and summer jobs, placing last job first. State in general the type of work performed and name and address of company or school district.

**Honors and Activities:** Include the following: participation in athletics and other important activities, major offices held, and membership in professional and fraternal organizations.

**Military Service:** Show dates of entry and discharge, branch of service, rank, and reserve status.

**Personal Information:** Give birthdate, height, weight, state of health, marital status, and number of dependents. If male, show draft status and lottery number.

**References:** Include the names and addresses of several personal references.

**Security Clearance:** Name only the highest clearance you hold (if any).

## PREPARING FOR THE JOB INTERVIEW

Obviously, the job interview is the most important step in obtaining employment. No matter how impressive your resume is, the effect you have on the interviewer (and there may be more than one) will ultimately determine whether you are offered a job for which you are qualified. Although some nervousness is normal, you should not approach the interview with fear. The more self-assurance and self-control you maintain, the more articulate you will be and the more likely you will be to impress the interviewer.

The following basic checklists are not intended for the experienced or sophisticated employee. They will help most job seekers, however.

### Before the Interview

- Determine what kind of work you like best.
- If you have more than one preference, list them in the order preferred.
- Know the job or jobs that you would accept, particularly those that would motivate you to pursue further study (available jobs can be obtained from the local library or the state employment office).
- Learn all you can about the company interviewing you.
- Never take anyone with you to the interview.
- Dress neatly and conservatively (remember, however, that conservative dress no longer means a white shirt, a gray tie, and a dark suit).

### During the Interview

- Don't chew gum.
- Be pleasant and friendly, but businesslike.
- Let the interviewer control the interview (he expects to). Answer his questions frankly. Be brief but answer them completely without rambling.
- Be flexible about your objectives but give the interviewer a clear idea of your job preferences.
- Stress your qualifications but don't exaggerate.
- In discussing your previous jobs and work conditions, avoid criticizing former employers or fellow workers.
- Don't discuss your personal or financial problems unless you are questioned about them.
- Don't be in a hurry to ask questions but don't be afraid to ask for answers you need to know. If the interviewer offers you a job, be sure you understand exactly what your duties would be.
- Be prepared to state the salary you want but let the interviewer introduce the subject. Be realistic in discussing your salary.
- If the interviewer does not definitely offer you a job or indicate when you will hear from him, ask when you may call to learn his decision.
- Should the interviewer ask you to call him or return for another interview, write down the time, date, and place.
- Thank the interviewer for the interview. If he indicates that he cannot use you, ask him to suggest another employer.

## PROCEDURE FOR FILING CHARGES

The following charts outline how a charge of unlawful employment practices is processed under Title VII <sup>1</sup> and Executive Order 11246.

### PROCESSING DISCRIMINATION CHARGES AGAINST GOVERNMENT CONTRACTORS (Executive Order 11246, 1965)

### PROCESSING CHARGES OF DISCRIMINATION (Civil Rights Act, Title VII, 1964)

<sup>1</sup>This law applies to all employers, including city, county, state, and federal governments.

<sup>2</sup>Charges that an employer has violated Title VII may be filed with the EEOC by a person claiming to be aggrieved, a member of the EEOC, or persons acting on behalf of an aggrieved person.

<sup>3</sup>Contact the local EEOC office to determine if your state is a deferral state.

<sup>4</sup>For example, Atomic Energy Commission (AEC); Department of Defense (DOD).

## EQUAL OPPORTUNITY LEGISLATION

In the last decade, Congress has enacted a great deal of equal opportunity legislation. These acts, combined with various executive and other orders, give minorities and women the broadest legal base of protection in history. The illustration below shows the chronological relationship of this legislation, which, except for Order Nos. 4 and 14, is reproduced in whole or in part on the following pages. The California Code of Fair Practices is included as an example of what can be done at the state level to supplement federal minority legislation, especially educational recruiting (Article V).

## An Act

To prohibit discrimination on account of sex in the payment of wages by employers engaged in commerce or in the production of goods for commerce.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Equal Pay Act of 1963."

Equal Pay Act  
of 1963.

### DECLARATION OF PURPOSE

SEC. 2. (a) The Congress hereby finds that the existence in industries engaged in commerce or in the production of goods for commerce of wage differentials based on sex—

(1) depresses wages and living standards for employees necessary for their health and efficiency;

(2) prevents the maximum utilization of the available labor resources;

(3) tends to cause labor disputes, thereby burdening, affecting, and obstructing commerce;

(4) burdens commerce and the free flow of goods in commerce; and

(5) constitutes an unfair method of competition.

(b) It is hereby declared to be the policy of this Act, through exercise by Congress of its power to regulate commerce among the several States and with foreign nations, to correct the conditions above referred to in such industries.

SEC. 3. Section 6 of the Fair Labor Standards Act of 1938, as amended (29 U.S.C. et seq.), is amended by adding thereto a new subsection (d) as follows:

"(d) (1) No employer having employees subject to any provisions of this section shall discriminate, within any establishment in which such employees are employed, between employees on the basis of sex by paying wages to employees in such establishment at a rate less than the rate at which he pays wages to employees of the opposite sex in such establishment for equal work on jobs the performance of which requires equal skill, effort, and responsibility, and which are performed under similar working conditions, except where such payment is made pursuant to (i) a seniority system; (ii) a merit system; (iii) a system which measures earnings by quantity or quality of production; or (iv) a differential based on any other factor other than sex: *Provided*, That an employer who is paying a wage rate differential in violation of this subsection shall not, in order to comply with the provisions of this subsection, reduce the wage rate of any employee."

"(2) No labor organization, or its agents, representing employees of an employer having employees subject to any provisions of this section shall cause or attempt to cause such an employer to discriminate against an employee in violation of paragraph (1) of this subsection."

"(3) For purposes of administration and enforcement, any amounts owing to any employee which have been withheld in violation of this subsection shall be deemed to be unpaid minimum wages or unpaid overtime compensation under this Act."

"(4) As used in this subsection, the term 'labor organization' means any organization of any kind, or any agency or employee representation committee or plan, in which employees participate and which exists for the purpose, in whole or in part, of dealing with employers concerning grievances, labor disputes, wages, rates of pay, hours of employment, or conditions of work."

#### PREVENTION OF UNLAWFUL EMPLOYMENT PRACTICES

SEC. 706. (a) Whenever it is charged in writing under oath by a person claiming to be aggrieved, or a written charge has been filed by a member of the Commission where he has reasonable cause to believe a violation of this title has occurred (and such charge sets forth the facts upon which it is based) that an employer, employment agency, or labor organization has engaged in an unlawful employment practice, the Commission shall furnish such employer, employment agency, or labor organization (hereinafter referred to as the "respondent") with a copy of such charge and shall make an investigation of such charge, provided that such charge shall not be made public by the Commission. If the Commission shall determine, after such investigation, that there is reasonable cause to believe that the charge is true, the Commission shall endeavor to eliminate any such alleged unlawful employment practice by informal methods of conference, conciliation, and persuasion. Nothing said or done during and as a part of such endeavors may be made public by the Commission without the written consent of the parties, or used as evidence in a subsequent proceeding. Any officer or employee of the Commission, who shall make public in any manner whatever any information in violation of this subsection shall be deemed guilty of a misdemeanor and upon conviction thereof shall be fined not more than \$1,000 or imprisoned not more than one year.

(b) In the case of an alleged unlawful employment practice occurring in a State, or political subdivision of a State, which has a State or local law prohibiting the unlawful employment practice alleged and establishing or authorizing a State or local authority to grant or seek relief from such practice or to institute criminal proceedings with respect thereto upon receiving notice thereof, no charge may be filed under subsection (a) by the person aggrieved before the expira-

Legal proceedings.

tion of sixty days after proceedings have been commenced under the State or local law, unless such proceedings have been earlier terminated, provided that such sixty-day period shall be extended to one hundred and twenty days during the first year after the effective date of such State or local law. If any requirement for the commencement of such proceedings is imposed by a State or local authority other than a requirement of the filing of a written and signed statement of the facts upon which the proceeding is based, the proceeding shall be deemed to have been commenced for the purposes of this subsection at the time such statement is sent by registered mail to the appropriate State or local authority.

Time require-  
ments.

(c) In the case of any charge filed by a member of the Commission alleging an unlawful employment practice occurring in a State or political subdivision of a State, which has a State or local law prohibiting the practice alleged and establishing or authorizing a State or local authority to grant or seek relief from such practice or to institute criminal proceedings with respect thereto upon receiving notice thereof, the Commission shall, before taking any action with respect to such charge, notify the appropriate State or local officials and, upon request, afford them a reasonable time, but not less than sixty days (provided that such sixty-day period shall be extended to one hundred and twenty days during the first year after the effective day of such State or local law), unless a shorter period is requested, to act under such State or local law to remedy the practice alleged.

(d) A charge under subsection (a) shall be filed within ninety days after the alleged unlawful employment practice occurred, except that in the case of an unlawful employment practice with respect to which the person aggrieved has followed the procedure set out in subsection (b), such charge shall be filed by the person aggrieved within two hundred and ten days after the alleged unlawful employment practice occurred, or within thirty days after receiving notice that the State or local agency has terminated the proceedings under the State or local law, whichever is earlier, and a copy of such charge shall be filed by the Commission with the State or local agency.

(e) If within thirty days after a charge is filed with the Commission or within thirty days after expiration of any period of reference under subsection (c) (except that in either case such period may be extended to not more than sixty days upon a determination by the Commission that further efforts to secure voluntary compliance are warranted), the Commission has been unable to obtain voluntary compliance with this title, the Commission shall so notify the person aggrieved and a civil action may, within thirty days thereafter, be brought against the respondent named in the charge (1) by the person claiming to be aggrieved, or (2) if such charge was filed by a member of the Commission, by any person whom the charge alleges was aggrieved by the alleged unlawful employment practice. Upon application by the complainant and in such circumstances as the court may deem just, the court may appoint an attorney for such complainant and may authorize the commencement of the action without the payment of fees, costs, or security. Upon timely application, the court may, in its discretion, permit the Attorney General to intervene in such civil action if he certifies that the case is of general public importance. Upon request, the court may, in its discretion, stay further proceedings for not more than sixty days pending the termination of State or local proceedings described in subsection (b) or the efforts of the Commission to obtain voluntary compliance.

(f) Each United States district court and each United States court of a place subject to the jurisdiction of the United States shall

have jurisdiction of actions brought under this title. Such an action may be brought in any judicial district in the State in which the unlawful employment practice is alleged to have been committed, in the judicial district in which the employment records relevant to such practice are maintained and administered, or in the judicial district in which the plaintiff would have worked but for the alleged unlawful employment practice, but if the respondent is not found within any such district, such an action may be brought within the judicial district in which the respondent has his principal office. For purposes of sections 1404 and 1406 of title 28 of the United States Code, the judicial district in which the respondent has his principal office shall in all cases be considered a district in which the action might have been brought.

76A Stat. 699.

(g) If the court finds that the respondent has intentionally engaged in or is intentionally engaging in an unlawful employment practice charged in the complaint, the court may enjoin the respondent from engaging in such unlawful employment practice, and order such affirmative action as may be appropriate, which may include reinstatement or hiring of employees, with or without back pay (payable by the employer, employment agency, or labor organization, as the case may be, responsible for the unlawful employment practice). Interim earnings or amounts earnable with reasonable diligence by the person or persons discriminated against shall operate to reduce the back pay otherwise allowable. No order of the court shall require the admission or reinstatement of an individual as a member of a union or the hiring, reinstatement, or promotion of an individual as an employee, or the payment to him of any back pay, if such individual was refused admission, suspended, or expelled or was refused employment or advancement or was suspended or discharged for any reason other than discrimination on account of race, color, religion, sex or national origin or in violation of section 704(a).

(h) The provisions of the Act entitled "An Act to amend the Judicial Code and to define and limit the jurisdiction of courts sitting in equity, and for other purposes," approved March 23, 1932 (29 U.S.C. 101-115), shall not apply with respect to civil actions brought under this section.

47 Stat. 70.

(i) In any case in which an employer, employment agency, or labor organization fails to comply with an order of a court issued in a civil action brought under subsection (e), the Commission may commence proceedings to compel compliance with such order.

(j) Any civil action brought under subsection (e) and any proceedings brought under subsection (i) shall be subject to appeal as provided in sections 1291 and 1292, title 28, United States Code.

(k) In any action or proceeding under this title the court, in its discretion, may allow the prevailing party, other than the Commission or the United States, a reasonable attorney's fee as part of the costs, and the Commission and the United States shall be liable for costs the same as a private person.

SEC. 707. (a) Whenever the Attorney General has reasonable cause to believe that any person or group of persons is engaged in a pattern or practice of resistance to the full enjoyment of any of the rights secured by this title, and that the pattern or practice is of such a nature and is intended to deny the full exercise of the rights herein described, the Attorney General may bring a civil action in the appropriate district court of the United States by filing with it a complaint (1) signed by him (or in his absence the Acting Attorney General), (2) setting forth facts pertaining to such pattern or practice, and (3) requesting such relief, including an application for a permanent or temporary injunction, restraining order or other order against the

person or persons responsible for such pattern or practice, as he deems necessary to insure the full enjoyment of the rights herein described.

(b) The district courts of the United States shall have and shall exercise jurisdiction of proceedings instituted pursuant to this section, and in any such proceeding the Attorney General may file with the clerk of such court a request that a court of three judges be convened to hear and determine the case. Such request by the Attorney General shall be accompanied by a certificate that, in his opinion, the case is of general public importance. A copy of the certificate and request for a three-judge court shall be immediately furnished by such clerk to the chief judge of the circuit (or in his absence, the presiding circuit judge of the circuit) in which the case is pending. Upon receipt of such request it shall be the duty of the chief judge of the circuit or the presiding circuit judge, as the case may be, to designate immediately three judges in such circuit, of whom at least one shall be a circuit judge and another of whom shall be a district judge of the court in which the proceeding was instituted, to hear and determine such case, and it shall be the duty of the judges so designated to assign the case for hearing at the earliest practicable date, to participate in the hearing and determination thereof, and to cause the case to be in every way expedited. An appeal from the final judgment of such court will lie to the Supreme Court.

In the event the Attorney General fails to file such a request in any such proceeding, it shall be the duty of the chief judge of the district (or in his absence, the acting chief judge) in which the case is pending immediately to designate a judge in such district to hear and determine the case. In the event that no judge in the district is available to hear and determine the case, the chief judge of the district, or the acting chief judge, as the case may be, shall certify this fact to the chief judge of the circuit (or in his absence, the acting chief judge) who shall then designate a district or circuit judge of the circuit to hear and determine the case.

It shall be the duty of the judge designated pursuant to this section to assign the case for hearing at the earliest practicable date and to cause the case to be in every way expedited.

#### EFFECT ON STATE LAWS

SEC. 708. Nothing in this title shall be deemed to exempt or relieve any person from any liability, duty, penalty, or punishment provided by any present or future law of any State or political subdivision of a State, other than any such law which purports to require or permit the doing of any act which would be an unlawful employment practice under this title.

#### INVESTIGATIONS, INSPECTIONS, RECORDS, STATE AGENCIES

SEC. 709. (a) In connection with any investigation of a charge filed under section 706, the Commission or its designated representative shall at all reasonable times have access to, for the purposes of examination, and the right to copy any evidence of any person being investigated or proceeded against that relates to unlawful employment practices covered by this title and is relevant to the charge under investigation.

Agreements,  
State and local  
agencies.

(b) The Commission may cooperate with State and local agencies charged with the administration of State fair employment practices laws and, with the consent of such agencies, may for the purpose of carrying out its functions and duties under this title and within the limitation of funds appropriated specifically for such purpose, utilize the services of such agencies and their employees and, notwithstand-

ing any other provision of law, may reimburse such agencies and their employees for services rendered to assist the Commission in carrying out this title. In furtherance of such cooperative efforts, the Commission may enter into written agreements with such State or local agencies and such agreements may include provisions under which the Commission shall refrain from processing a charge in any cases or class of cases specified in such agreements and under which no person may bring a civil action under section 706 in any cases or class of cases so specified, or under which the Commission shall relieve any person or class of persons in such State or locality from requirements imposed under this section. The Commission shall rescind any such agreement whenever it determines that the agreement no longer serves the interest of effective enforcement of this title.

(c) Except as provided in subsection (d), every employer, employment agency, and labor organization subject to this title shall (1) make and keep such records relevant to the determinations of whether unlawful employment practices have been or are being committed, (2) preserve such records for such periods, and (3) make such reports therefrom, as the Commission shall prescribe by regulation or order, after public hearing, as reasonable, necessary, or appropriate for the enforcement of this title or the regulations or orders thereunder. The Commission shall, by regulation, require each employer, labor organization, and joint labor-management committee subject to this title which controls an apprenticeship or other training program to maintain such records as are reasonably necessary to carry out the purpose of this title, including, but not limited to, a list of applicants who wish to participate in such program, including the chronological order in which such applications were received, and shall furnish to the Commission, upon request, a detailed description of the manner in which persons are selected to participate in the apprenticeship or other training program. Any employer, employment agency, labor organization, or joint labor-management committee which believes that the application to it of any regulation or order issued under this section would result in undue hardship may (1) apply to the Commission for an exemption from the application of such regulation or order, or (2) bring a civil action in the United States district court for the district where such records are kept. If the Commission or the court, as the case may be, finds that the application of the regulation or order to the employer, employment agency, or labor organization in question would impose an undue hardship, the Commission or the court, as the case may be, may grant appropriate relief.

(d) The provisions of subsection (c) shall not apply to any employer, employment agency, labor organization, or joint labor-management committee with respect to matters occurring in any State or political subdivision thereof which has a fair employment practice law during any period in which such employer, employment agency, labor organization, or joint labor-management committee is subject to such law, except that the Commission may require such notations on records which such employer, employment agency, labor organization, or joint labor-management committee keeps or is required to keep as are necessary because of differences in coverage or methods of enforcement between the State or local law and the provisions of this title. Where an employer is required by Executive Order 10925, issued March 6, 1961, or by any other Executive order prescribing fair employment practices for Government contractors and subcontractors, or by rules or regulations issued thereunder, to file reports relating to his employment practices with any Federal agency or committee, and he is substantially in compliance with such requirements, the Commission shall not require him to file additional reports pursuant to subsection (c) of this section.

(e) It shall be unlawful for any officer or employee of the Commission to make public in any manner whatever any information obtained by the Commission pursuant to its authority under this section prior to the institution of any proceeding under this title involving such information. Any officer or employee of the Commission who shall make public in any manner whatever any information in violation of this subsection shall be guilty of a misdemeanor and upon conviction thereof, shall be fined not more than \$1,000, or imprisoned not more than one year.

INVESTIGATORY POWERS

SEC. 710. (a) For the purposes of any investigation of a charge filed under the authority contained in section 706, the Commission shall have authority to examine witnesses under oath and to require the production of documentary evidence relevant or material to the charge under investigation.

(b) If the respondent named in a charge filed under section 706 fails or refuses to comply with a demand of the Commission for permission to examine or to copy evidence in conformity with the provisions of section 709(a), or if any person required to comply with the provisions of section 709 (c) or (d) fails or refuses to do so, or if any person fails or refuses to comply with a demand by the Commission to give testimony under oath, the United States district court for the district in which such person is found, resides, or transacts business, shall, upon application of the Commission, have jurisdiction to issue to such person an order requiring him to comply with the provisions of section 709 (c) or (d) or to comply with the demand of the Commission, but the attendance of a witness may not be required outside the State where he is found, resides, or transacts business and the production of evidence may not be required outside the State where such evidence is kept.

Petitions.

(c) Within twenty days after the service upon any person charged under section 706 of a demand by the Commission for the production of documentary evidence or for permission to examine or to copy evidence in conformity with the provisions of section 709(a), such person may file in the district court of the United States for the judicial district in which he resides, is found, or transacts business, and serve upon the Commission a petition for an order of such court modifying or setting aside such demand. The time allowed for compliance with the demand in whole or in part as deemed proper and ordered by the court shall not run during the pendency of such petition in the court. Such petition shall specify each ground upon which the petitioner relies in seeking such relief, and may be based upon any failure of such demand to comply with the provisions of this title or with the limitations generally applicable to compulsory process or upon any constitutional or other legal right or privilege of such person. No objection which is not raised by such a petition may be urged in the defense to a proceeding initiated by the Commission under subsection (b) for enforcement of such a demand unless such proceeding is commenced by the Commission prior to the expiration of the twenty-day period, or unless the court determines that the defendant could not reasonably have been aware of the availability of such ground of objection.

(d) In any proceeding brought by the Commission under subsection (b), except as provided in subsection (c) of this section, the defendant may petition the court for an order modifying or setting aside the demand of the Commission.

Under and by virtue of the authority vested in me as President of the United States by the Constitution and statutes of the United States, it is ordered as follows:

**PART I—NONDISCRIMINATION IN GOVERNMENT EMPLOYMENT**

(Part I Superseded by E. O. 11478 issued 8/8/69, 34 F. R. 12985, providing more detailed instructions for implementation of equal employment opportunities in the United States Civil Service.)

**SECTION 101.** It is the policy of the Government of the United States to provide equal opportunity in Federal employment for all qualified persons, to prohibit discrimination in employment because of race, color, religion, sex or national origin, and to promote the full realization of equal employment opportunity through a positive, continuing program in each executive department and agency. The policy of equal opportunity applies to every aspect of Federal employment policy and practice.

**SEC. 102.** The head of each executive department and agency shall establish and maintain a positive program of equal employment opportunity for all civilian employees and applicants for employment within his jurisdiction in accordance with the policy set forth in Section 101.

**SEC. 103.** The Civil Service Commission shall supervise and provide leadership and guidance in the conduct of equal employment opportunity programs for the civilian employees of and applications for employment within the executive departments and agencies and shall review agency program accomplishments periodically. In order to facilitate the achievement of a model program for equal employment opportunity in the Federal service, the Commission may consult from time to time with such individuals, groups, or organizations as may be of assistance in improving the Federal program and realizing the objectives of this Part.

**SEC. 104.** The Civil Service Commission shall provide for the prompt, fair, and impartial consideration of all complaints of discrimination in Federal employment on the basis of race, color, religion, sex or national origin. Procedures for the consideration of complaints shall include at least one impartial review within the executive department or agency and shall provide for appeal to the Civil Service Commission.

**SEC. 105.** The Civil Service Commission shall issue such regulations, orders, and instructions as it deems necessary and appropriate to carry out its responsibilities under this Part, and the head of each executive department and agency shall comply with the regulations, orders, and instructions issued by the Commission under this Part. Amended 10/13/67 by E. O. 11375, 32 F. R. 14303, adding discrimination on account of sex, effective as to Part I November 12, 1967 and as to Part II October 13, 1968.

to ensure that applicants are employed, and that employees are treated during employment, without regard to their race, color, religion, sex or national origin. Such action shall include, but not be limited to the following: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the contracting officer setting forth the provisions of this nondiscrimination clause.

"(2) The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex or national origin.

"(3) The contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice, to be provided by the agency contracting officer, advising the labor union or workers' representative of the contractor's commitments under Section 202 of Executive Order No. 11246 of September 24, 1965, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

"(4) The contractor will comply with all provisions of Executive Order No. 11246 of Sept. 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

"(5) The contractor will furnish all information and reports required by Executive Order No. 11246 of September 24, 1965, and by the rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the contracting agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

"(6) In the event of the contractor's noncompliance with the nondiscrimination clauses of this contract or with any of such rules, regulations, or orders, this contract may be cancelled, terminated or suspended in whole or in part and the contractor may be declared ineligible for further Government contracts in accordance with procedures authorized in Executive Order No. 11246 of Sept. 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order No. 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

"(7) The contractor will include the provisions of Paragraphs (1) through (7) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to Section 204 of Executive Order No. 11246 of Sept. 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as the contracting agency may direct as a means of enforcing such provisions including sanctions for noncompliance: *Provided, however,* That in the event the contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the contracting agency, the contractor may request the United States to enter into such litigation to protect the interests of the United States."

Sec. 203. (a) Each contractor having a contract containing the provisions prescribed in Section 202 shall file, and shall cause each of his subcontractors to file, Compliance Reports with the contracting agency or the Secretary of Labor as may be directed. Compliance Reports shall be filed within such times and shall contain such information as to the practices, policies, programs, and employment policies, programs, and employment statistics of the contractor and each subcontractor, and shall be in such form, as the Secretary of Labor may prescribe.

(b) Bidders or prospective contractors or subcontractors may be required to state whether they have participated in any previous contract subject to the provisions of this Order, or any preceding similar Executive order, and in that event to submit, on behalf of themselves and their proposed subcontractors, Compliance Reports prior to or as an initial part of their bid or negotiation of a contract.

(c) Whenever the contractor or subcontractor has a collective bargaining agreement or other contract or understanding with a labor union or an agency referring workers or providing or supervising apprenticeship or training for such workers, the Compliance Report shall include such information as to such labor union's or agency's practices and policies affecting compliance as the Secretary of Labor may prescribe: *Provided,* That to the extent such information is within the exclusive possession of a labor union or an agency referring workers or providing or supervising apprenticeship or training and such labor union or agency shall refuse to furnish such information to the contractor, the contractor shall so certify to the contracting agency as part of its Compliance Report and shall set forth what efforts he has made to obtain such information.

(d) The contracting agency or the Secretary of Labor may direct that any bidder or prospective contractor or subcontractor shall submit, as part of his Compliance Report, a statement in writing, signed by an authorized officer or agent on behalf of any labor union or any agency referring workers or providing or supervising apprenticeship or other train-

ing, with which the bidder or prospective contractor deals, with supporting information, to the effect that the signer's practices and policies do not discriminate on the grounds of race, color, religion, sex or national origin, and that the signer either will affirmatively cooperate in the implementation of the policy and provisions of this Order or that it consents and agrees that recruitment, employment, and the terms and conditions of employment under the proposed contract shall be in accordance with the purposes and provisions of the Order. In the event that the union, or the agency shall refuse to execute such a statement, the Compliance Report shall so certify and set forth what efforts have been made to secure such a statement and such additional factual material as the contracting agency or the Secretary of Labor may require.

SEC. 204. The Secretary of Labor may, when he deems that special circumstances in the national interest so require, exempt a contracting agency from the requirement of including any or all of the provisions of Section 202 of this Order in any specific contract, subcontract, or purchase order. The Secretary of Labor may, by rule or regulation, also exempt certain classes of contracts, subcontracts, or purchase orders (1) whenever work is to be or has been performed outside the United States and no recruitment of workers within the limits of the United States is involved; (2) for standard commercial supplies or raw materials; (3) involving less than specified amounts of money or specified numbers of workers; or (4) to the extent that they involve subcontracts below a specified tier. The Secretary of Labor may also provide, by rule, regulation, or order, for the exemption of facilities of a contractor which are in all respects separate and distinct from activities of the contractor related to the performance of the contract: *Provided*, That such an exemption will not interfere with or impede the effectuation of the purposes of this Order: *And provided further*, That in the absence of such an exemption all facilities shall be covered by the provisions of this Order.

SUBPART C—POWERS AND DUTIES OF THE SECRETARY OF LABOR AND THE  
CONTRACTING AGENCIES

SEC. 205. Each contracting agency shall be primarily responsible for obtaining compliance with the rules, regulations, and orders of the Secretary of Labor with respect to contracts entered into by such agency or its contractors. All contracting agencies shall comply with the rules of the Secretary of Labor in discharging their primary responsibility for securing compliance with the provisions of contracts and otherwise with the terms of this Order and of the rules, regulations, and orders of the Secretary of Labor issued pursuant to this Order. They are directed to cooperate with the Secretary of Labor and to furnish the Secretary of Labor such information and assistance as he may require in the performance of his functions under this Order. They are further directed to appoint or designate, from among the agency's personnel, compliance officers. It shall be the duty of such officers to seek compliance with the objectives of this Order by conference, conciliation, mediation, or persuasion.

SEC. 206. (a) The Secretary of Labor may investigate the employment practices of any Government contractor or subcontractor, or initiate such investigation by the appropriate contracting agency, to determine whether or not the contractual provisions specified in Section 202 of this Order have been violated. Such investigation shall be conducted in accordance with the procedures established by the Secretary of Labor and the investigating agency shall report to the Secretary of Labor any action taken or recommended.

(b) The Secretary of Labor may receive and investigate or cause to be investigated complaints by employees or prospective employees of a Government contractor or subcontractor which allege discrimination contrary to the contractual provisions specified in Section 202 of this Order. If this investigation is conducted for the Secretary of Labor by a contracting agency, that agency shall report to the Secretary what action has been taken or is recommended with regard to such complaints.

SEC. 207. The Secretary of Labor shall use his best efforts, directly and through contracting agencies, other interested Federal, State, and local agencies, contractors, and all other available instrumentalities to cause any labor union engaged in work under Government contracts or any agency referring workers or providing or supervising apprenticeship or training for or in the course of such work to cooperate in the implementation of the purposes of this Order. The Secretary of Labor shall, in appropriate cases, notify the

Equal Employment Opportunity Commission, the Department of Justice, or other appropriate Federal agencies whenever it has reason to believe that the practices of any such labor organization or agency violate Title VI or Title VII of the Civil Rights Act of 1964 or other provision of Federal law.

SEC. 208. (a) The Secretary of Labor, or any agency, officer, or employee in the executive branch of the Government designated by rule, regulation, or order of the Secretary, may hold such hearings, public or private, as the Secretary may deem advisable for compliance, enforcement, or educational purposes.

(b) The Secretary of Labor may hold, or cause to be held, hearings in accordance with Subsection (a) of this Section prior to imposing, ordering, or recommending the imposition of penalties and sanctions under this Order. No order for debarment of any contractor from further Government contracts under Section 209(a)(6) shall be made without affording the contractor an opportunity for a hearing.

#### SUBPART D—SANCTIONS AND PENALTIES

SEC. 209. (a) In accordance with such rules, regulations, or orders as the Secretary of Labor may issue or adopt, the Secretary or the appropriate contracting agency may:

(1) Publish, or cause to be published, the names of contractors or unions which it has concluded have complied or have failed to comply with the provisions of this Order or of the rules, regulations, and orders of the Secretary of Labor.

(2) Recommend to the Department of Justice that, in cases in which there is substantial or material violation or the threat of substantial or material violation of the contractual provisions set forth in Section 202 of this Order, appropriate proceedings be brought to enforce those provisions, including the enjoining, within the limitations of applicable law, of organizations, individuals, or groups who prevent directly or indirectly, or seek to prevent directly or indirectly, compliance with the provisions of this Order.

(3) Recommend to the Equal Employment Opportunity Commission or the Department of Justice that appropriate proceedings be instituted under Title VII of the Civil Rights Act of 1964.

(4) Recommend to the Department of Justice that criminal proceedings be brought for the furnishing of false information to any contracting agency or to the Secretary of Labor as the case may be.

(5) Cancel, terminate, suspend, or cause to be cancelled, terminated, or suspended, any contract, or any portion or portions thereof, for failure of the contractor or subcontractor to comply with the nondiscrimination provisions of the contract. Contracts may be cancelled, terminated, or suspended absolutely or continuance of contracts may be conditioned upon a program for future compliance approved by the contracting agency.

(6) Provide that any contracting agency shall refrain from entering into further contracts, or extensions or other modifications of existing contracts, with any noncomplying contractor, until such contractor has satisfied the Secretary of Labor that such contractor has established and will carry out personnel and employment policies in compliance with the provisions of this Order.

(b) Under rules and regulations prescribed by the Secretary of Labor, each contracting agency shall make reasonable efforts within a reasonable time limitation to secure compliance with the contract provisions of this Order by methods of conference, conciliation, mediation, and persuasion before proceedings shall be instituted under Subsection (a)(2) of this Section, or before a contract shall be cancelled or terminated in whole or in part under Subsection (a)(5) of this Section for failure of a contractor or subcontractor to comply with the contract provisions of this Order.

SEC. 210. Any contracting agency taking any action authorized by this Subpart, whether on its own motion, or as directed by the Secretary of Labor, or under the rules and regulations of the Secretary, shall promptly notify the Secretary of such action. Whenever the Secretary of Labor makes a determination under this Section, he shall promptly notify the appropriate contracting agency of the action recommended. The agency shall take

such action and shall report the results thereof to the Secretary of Labor within such time as the Secretary shall specify.

SEC. 211. If the Secretary shall so direct, contracting agencies shall not enter into contracts with any bidder or prospective contractor unless the bidder or prospective contractor has satisfactorily complied with the provisions of this Order or submits a program for compliance acceptable to the Secretary of Labor or, if the Secretary so authorizes, to the contracting agency.

SEC. 212. Whenever a contracting agency cancels or terminates a contract, or whenever a contractor has been debarred from further Government contracts, under Section 209(a)(6) because of noncompliance with the contract provisions with regard to nondiscrimination, the Secretary of Labor, or the contracting agency involved, shall promptly notify the Comptroller General of the United States. Any such debarment may be rescinded by the Secretary of Labor or by the contracting agency which imposed the sanction.

SUBPART E—CERTIFICATES OF MERIT

SEC. 213. The Secretary of Labor may provide for issuance of a United States Government Certificate of Merit to employers or labor unions, or other agencies which are or may hereafter be engaged in work under Government contracts, if the Secretary is satisfied that the personnel and employment practices of the employer, or that the personnel, training, apprenticeship, membership, grievance and representation, upgrading, and other practices and policies of the labor union or other agency conform to the purposes and provisions of this Order.

SEC. 214. Any Certificate of Merit may at any time be suspended or revoked by the Secretary of Labor if the holder thereof, in the judgment of the Secretary, has failed to comply with the provisions of this Order.

SEC. 215. The Secretary of Labor may provide for the exemption of any employer, labor union, or other agency from any reporting requirements imposed under or pursuant to this Order if such employer, labor union, or other agency has been awarded a Certificate of Merit which has not been suspended or revoked.

PART III—NONDISCRIMINATION PROVISIONS IN FEDERALLY ASSISTED CONSTRUCTION CONTRACTS

SEC. 301. Each executive department and agency which administers a program involving Federal financial assistance shall require as a condition for the approval of any grant, contract, loan, insurance, or guarantee thereunder, which may involve a construction contract, that the applicant for Federal assistance undertake and agree to incorporate, or cause to be incorporated, into all construction contracts paid for in whole or in part with funds obtained from the Federal Government or borrowed on the credit of the Federal Government pursuant to such grant, contract, loan, insurance, or guarantee, or undertaken pursuant to any Federal program involving such grant, contract, loan, insurance, or guarantee, the provisions prescribed for Government contracts by Section 202 of this Order or such modification thereof, preserving in substance the contractor's obligations thereunder, as may be approved by the Secretary of Labor, together with such additional provisions as the Secretary deems appropriate to establish and protect the interest of the United States in the enforcement of those obligations. Each such applicant shall also undertake and agree (1) to assist and cooperate actively with the administering department or agency and the Secretary of Labor in obtaining the compliance of contractors and subcontractors with those contract provisions and with the rules, regulations, and relevant orders of the Secretary, (2) to obtain and to furnish to the administering department or agency and to the Secretary of Labor such information as they may require for the supervision of such compliance, (3) to carry out sanctions and penalties for violation of such obligations imposed upon contractors and subcontractors by the Secretary of Labor or the administering department or agency pursuant to Part II, Subpart D, of this Order, and (4) to refrain from entering into any contract subject to this Order, or extension or other modification of such a contract with a contractor debarred from Government contracts under Part II, Subpart D, of this Order.

EXECUTIVE ORDER 11375  
AMENDING EXECUTIVE ORDER NO. 11246, RELATING TO  
EQUAL EMPLOYMENT OPPORTUNITY

It is the policy of the United States Government to provide equal opportunity in Federal employment and in employment by Federal contractors on the basis of merit and without discrimination because of race, color, religion, sex or national origin.

The Congress, by enacting Title VII of the Civil Rights Act of 1964, enunciated a national policy of equal employment opportunity in private employment, without discrimination because of race, color, religion, sex or national origin.

Executive Order No. 11246 of September 24, 1965, carried forward a program of equal employment opportunity in Government employment, employment by Federal contractors and subcontractors and employment under Federally assisted construction contracts regardless of race, creed, color or national origin.

It is desirable that the equal employment opportunity programs provided for in Executive Order No. 11246 expressly embrace discrimination on account of sex.

NOW, THEREFORE, by virtue of the authority vested in me as President of the United States by the Constitution and statutes of the United States, it is ordered that Executive Order No. 11246 of September 24, 1965, be amended as follows:

(1) Section 101 of Part I, concerning nondiscrimination in Government employment, is revised to read as follows:

"SEC. 101. It is the policy of the Government of the United States to provide equal opportunity in Federal employment for all qualified persons, to prohibit discrimination in employment because of race, color, religion, sex or national origin, and to promote the full realization of equal employment opportunity through a positive, continuing program in each executive department and agency. The policy of equal opportunity applies to every aspect of Federal employment and practice."

(2) Section 104 of Part I is revised to read as follows:

"SEC. 104: The Civil Service Commission shall provide for the prompt, fair, and impartial consideration of all complaints of discrimination in Federal employment on the basis of race, color, religion, sex or national origin. Procedures for the consideration of complaints shall include at least one impartial review within the executive department or agency and shall provide for appeal to the Civil Service Commission."

(3) Paragraphs (1) and (2) of the quoted required contract provisions in section 202 of Part II, concerning nondiscrimination in employment by Government contractors and subcontractors, are revised to read as follows:

"(1) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, or national origin. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment, without regard to their race, color, religion, sex or national origin. Such action shall include, but not be limited to the following: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the contracting officer setting forth the provisions of this nondiscrimination clause.

"(2) The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex or national origin." (4) Section 203 (d) of Part II is revised to read as follows:

"(d) The contracting agency or the Secretary of Labor may direct that any bidder or prospective contractor or subcontractor shall submit, as part of his Compliance Report, a statement in writing, signed by an authorized officer or agent on behalf of any labor union or any agency referring workers or providing or supervising apprenticeship or other training, with which the bidder or prospective contractor deals, with supporting information, to the effect that the signer's practices and policies do not discriminate on the grounds of race, color, religion, sex or national origin, and that the signer either will affirmatively cooperate in the implementation of the policy and provisions of this order or that it consents and agrees that recruitment, employment, and the terms and conditions of employment under

the proposed contract shall be in accordance with the purposes and provisions of the order. In the event that the union, or the agency shall refuse to execute such a statement, the Compliance Report shall so certify and set forth what efforts have been made to secure such a statement and such additional factual material as the contracting agency or the Secretary of Labor may require."

The amendments to Part I shall be effective 30 days after the date of this order. The amendments to Part II shall be effective one year after the date of this order.

#### **Subpart A—General**

##### **§ 60-2.1 Title, purpose and scope.**

This part shall also be known as "Revised Order No. 4," and shall cover non-construction contractors. Section 60-1.40 of this Chapter, Affirmative Action Compliance Programs, requires that within 120 days from the commencement of a contract each prime contractor or subcontractor with 50 or more employees and a contract of \$50,000 or more develop a written affirmative action compliance program for each of its establishments, and such contractors are now further required to revise existing written affirmative action programs to include the changes embodied in this order within 120 days of its publication in the FEDERAL REGISTER. A review of agency compliance surveys indicates that many contractors do not have affirmative action programs on file at the time an establishment is visited by a compliance investigator. This part details the agency review procedure and the results of a contractor's failure to develop and maintain an affirmative action program and then set forth detailed guidelines to be used by contractors and Government agencies in developing and judging these programs as well as the good faith effort required to transform the programs from paper commitments to equal employment opportunity. Subparts B and C are concerned with affirmative action plans only.

Relief for members of an "affected class" who, by virtue of past discrimination, continue to suffer the present effects of that discrimination must either be included in the contractor's affirmative action program or be embodied in a separate written "corrective action" program. An "affected class" problem must be remedied in order for a contractor to be considered in compliance. Section 60-2.2 herein pertaining to an acceptable affirmative action program is also applicable to the failure to remedy discrimination against members of an "affected class."

##### **§ 60-2.2 Agency action.**

(a) Any contractor required by § 60-1.40 of this chapter to develop an affirmative action program at each of his establishments who has not complied fully with that section is not in compliance with Executive Order 11246, as amended (30 F.R. 12319). Until such programs are developed and found to be acceptable in accordance with the standards and guidelines set forth in §§ 60-2.10 through 60-2.32, the contractor is unable to comply with the equal employment opportunity clause.

(b) If, in determining such contractor's responsibility for an award of a contract it comes to the contracting officer's attention, through sources within his agency or through the Office of Federal Contract Compliance or other Government agencies, that the contractor has not developed an acceptable affirmative action program at each of his establishments, the contracting officer shall notify the Director and declare the contractor-bidder nonresponsible unless he can otherwise affirmatively determine that the contractor is able to comply with his equal employment obligations or, unless, upon review, it is determined by the Director that substantial issues of law or fact exist as to the contractor's responsibility to the extent that a hearing is, in his sole judgment, required prior to a determination that the contractor is nonresponsible. *Provided*, That during any pre-award conferences every effort shall be made through the processes of conciliation, mediation and persuasion to develop an acceptable affirmative action program meeting the standards and guidelines set forth in §§ 60-2.10 through 60-2.32 so that, in the performance of his contract, the contractor is able to meet his equal employment obligations in accordance with the equal opportunity clause and applicable rules, regulations, and orders. *Provided further*, That when the contractor-bidder is declared nonresponsible more than once for inability to comply with the equal employment opportunity clause a notice setting a timely hearing date shall be issued concurrently with the second nonresponsibility determination in accordance with the provisions of § 60-1.26 proposing to declare such contractor-bidder ineligible for future contracts and subcontracts.

(c) Immediately upon finding that a contractor has no affirmative action program or that his program is not acceptable to the contracting officer, the compliance agency representative or the representative of the Office of Federal Contract Compliance, whichever has made such a finding, shall notify officials of the appropriate compliance agency and the Office of Federal Contract Compliance of such fact. The compliance agency shall issue a notice to the contractor giving him 30 days to show cause why enforcement proceedings under section 209(b) of Executive Order 11246, as amended, should not be instituted.

(1) If the contractor fails to show good cause for his failure or fails to remedy that failure by developing and implementing an acceptable affirmative action program within 30 days, the compliance agency, upon the approval of the

Director, shall immediately issue a notice of proposed cancellation or termination of existing contracts or subcontracts and debarment from future contracts and subcontracts pursuant to § 60-1.26(b), giving the contractor 10 days to request a hearing. If a request for hearing has not been received within 10 days from such notice, such contractor will be declared ineligible for future contracts and current contracts will be terminated for default.

(2) During the "show cause" period of 30 days every effort shall be made by the compliance agency through conciliation, mediation, and persuasion to resolve the deficiencies which led to the determination of nonresponsibility. If satisfactory adjustments designed to bring the contractor into compliance are not concluded, the compliance agency, with the prior approval of the Director, shall promptly commence formal proceedings leading to the cancellation or termination of existing contracts or subcontracts and debarment from future contracts and subcontracts under § 60-1.26(b) of this chapter.

(d) During the "show cause" period and formal proceedings, each contracting agency must continue to determine the contractor's responsibility in considering whether or not to award a new or additional contract.

#### Subpart B—Required Contents of Affirmative Action Programs

##### § 60-2.10 Purpose of affirmative action program.

An affirmative action program is a set of specific and result-oriented procedures to which a contractor commits himself to apply every good faith effort. The objective of those procedures plus such efforts is equal employment opportunity. Procedures without effort to make them work are meaningless; and effort, undirected by specific and meaningful procedures, is inadequate. An acceptable affirmative action program must include an analysis of areas within which the contractor is deficient in the utilization of minority groups and women, and further, goals and timetables to which the contractor's good faith efforts must be directed to correct the deficiencies and, thus to increase materially the utilization of minorities and women, at all levels and in all segments of his work force where deficiencies exist.

##### § 60-2.11 Required utilization analysis.

Based upon the Government's experience with compliance reviews under the Executive order programs and the contractor reporting system, minority groups are most likely to be underutilized in departments and jobs within departments that fall within the following Employer's Information Report (EIO-1) designations: officials and managers, professionals, technicians, sales workers, office and clerical and craftsmen (skilled). As categorized by the EEO-1 designations, women are likely to be underutilized in departments and jobs within departments as follows: officials

and managers, professionals, technicians, sales workers (except over-the-counter sales in certain retail establishments), craftsmen (skilled and semi-skilled). Therefore, the contractor shall direct special attention to such jobs in his analysis and goal setting for minorities and women. Affirmative action programs must contain the following information:

(a) An analysis of all major job classifications at the facility, with explanation if minorities or women are currently being underutilized in any one or more job classifications (job "classification" herein meaning one or a group of jobs having similar content, wage rates and opportunities). "Underutilization" is defined as having fewer minorities or women in a particular job classification than would reasonably be expected by their availability. In making the work force analysis, the contractor shall conduct such analysis separately for minorities and women.

(1) In determining whether minorities are being underutilized in any job classification the contractor will consider at least all of the following factors:

(i) The minority population of the labor area surrounding the facility;

(ii) The size of the minority unemployment force in the labor area surrounding the facility;

(iii) The percentage of the minority work force as compared with the total work force in the immediate labor area;

(iv) The general availability of minorities having requisite skills in the immediate labor area;

(v) The availability of minorities having requisite skills in an area in which the contractor can reasonably recruit;

(vi) The availability of promotable and transferable minorities within the contractor's organization;

(vii) The existence of training institutions capable of training persons in the requisite skills; and

(viii) The degree of training which the contractor is reasonably able to undertake as a means of making all job classes available to minorities.

(2) In determining whether women are being underutilized in any job classification, the contractor will consider at least all of the following factors:

(i) The size of the female unemployment force in the labor area surrounding the facility;

(ii) The percentage of the female workforce as compared with the total workforce in the immediate labor area;

(iii) The general availability of women having requisite skills in the immediate labor area;

(iv) The availability of women having requisite skills in an area in which the contractor can reasonably recruit;

(v) The availability of women seeking employment in the labor or recruitment area of the contractor;

(vi) The availability of promotable and transferable female employees within the contractor's organization;

(vii) The existence of training institutions capable of training persons in the requisite skills; and

(viii) The degree of training which the contractor is reasonably able to undertake as a means of making all job classes available to women.

##### § 60-2.12 Establishment of goal, and timetables.

(a) The goals and timetables developed by the contractor should be attainable in terms of the contractor's analysis of his deficiencies and his entire affirmative action program. Thus, in establishing the size of his goals and the length of his timetables, the contractor should consider the results which could reasonably be expected from his putting forth every good faith effort to make his overall affirmative action program work. In determining levels of goals, the contractor should consider at least the factors listed in § 60-2.11.

(b) Involve personnel relations staff, department and division heads, and local and unit managers in the goal setting process.

(c) Goals should be significant, measurable and attainable.

(d) Goals should be specific for planned results, with timetables for completion.

(e) Goals may not be rigid and inflexible quotas which must be met, but must be targets reasonably attainable by means of applying every good faith effort to make all aspects of the entire affirmative action program work.

(f) In establishing timetables to meet goals and commitments, the contractor will consider the anticipated expansion, contraction and turnover of and in the work force.

(g) Goals, timetables and affirmative action commitments must be designed to correct any identifiable deficiencies.

(h) Where deficiencies exist and where numbers or percentages are relevant in developing corrective action, the contractor shall establish and set forth specific goals and timetables separately for minorities and women.

(i) Such goals and timetables, with supporting data and the analysis thereof shall be a part of the contractor's written affirmative action program and shall be maintained at each establishment of the contractor.

(j) Where the contractor has not established a goal, his written affirmative action program must specifically analyze each of the factors listed in 60-2.11 and must detail his reason for a lack of a goal.

(k) In the event it comes to the attention of the compliance agency or the Office of Federal Contract Compliance that there is a substantial disparity in the utilization of a particular minority group or men or women of a particular minority group, the compliance agency or OFCC may require separate goals and timetables for such minority group and may further require, where appropriate, such goals and timetables by sex for such group for such job classifications and organizational units specified by the compliance agency or OFCC.

(l) Support data for the required analysis and program shall be compiled and maintained as part of the contractor's affirmative action program. This data will include but not be limited to progression line charts, seniority rosters, applicant flow data, and applicant rejection ratios indicating minority and sex status.

(m) Copies of affirmative action programs and/or copies of support data shall be made available to the compliance agency or the Office of Federal Contract Compliance, at the request of either, for such purposes as may be appropriate to the fulfillment of their responsibilities under Executive Order 11246, as amended.

#### § 60-2.13 Additional required ingredients of affirmative action programs.

Effective affirmative action programs shall contain, but not necessarily be limited to, the following ingredients:

(a) Development or reaffirmation of the contractor's equal employment opportunity policy in all personnel actions.

(b) Formal internal and external dissemination of the contractor's policy.

(c) Establishment of responsibilities for implementation of the contractor's affirmative action program.

(d) Identification of problem areas (deficiencies) by organizational units and job classification.

(e) Establishment of goals and objectives by organizational units and job classification, including timetables for completion.

(f) Development and execution of action oriented programs designed to eliminate problems and further designed to attain established goals and objectives.

(g) Design and implementation of internal audit and reporting systems to measure effectiveness of the total program.

(h) Compliance or personnel policies and practices with the Sex Discrimination Guidelines (41 CFR Part 60-20).

(i) Active support of local and national community action programs and community service programs, designed to improve the employment opportunities of minorities and women.

(j) Consideration of minorities and women not currently in the workforce having requisite skills who can be recruited through affirmative action measures.

#### § 60-2.14 Compliance status.

No contractor's compliance status shall be judged alone by whether or not he reaches his goals and meets his timetables. Rather, each contractor's compliance posture shall be reviewed and determined by reviewing the contents of his program, the extent of his adherence to this program, and his good faith efforts to make his program work toward the realization of the program's goals within the timetables set for completion. There follows an outline of examples of procedures that contractors and Federal agencies should use as a guideline for establishing, implementing, and judging an acceptable affirmative action program.

### Subpart C—Methods of Implementing the Requirements of Subpart B

#### § 60-2.20 Development or reaffirmation of the equal employment opportunity policy.

(a) The contractor's policy statement should indicate the chief executive officers' attitude on the subject matter, assign overall responsibility and provide for a reporting and monitoring procedure. Specific items to be mentioned should include, but not limited to:

(1) Recruit, hire, train, and promote persons in all job classifications, without regard to race, color, religion, sex, or national origin, except where sex is a bona fide occupational qualification. (The term "bona fide occupational qualification" has been construed very narrowly under the Civil Rights Act of 1964. Under Executive Order 11246 as amended and this part, this term will be construed in the same manner.)

(2) Base decisions on employment so as to further the principle of equal employment opportunity.

(3) Insure that promotion decisions are in accord with principles of equal employment opportunity by imposing only valid requirements for promotional opportunities.

(4) Insure that all personnel actions such as compensation, benefits, transfers, layoffs, return from layoff, company sponsored training, education, tuition assistance, social and recreation programs, will be administered without regard to race, color, religion, sex, or national origin.

(9) Post the policy on company bulletin boards.

(10) When employees are featured in product or consumer advertising, employee handbooks or similar publications both minority and nonminority, men and women should be pictured.

(b) The contractor should disseminate his policy externally as follows:

(1) Inform all recruiting sources verbally and in writing of company policy, stipulating that these sources actively recruit and refer minorities and women for all positions listed.

(2) Incorporate the Equal Opportunity clause in all purchase orders, leases, contracts, etc., covered by Executive Order 11246, as amended, and its implementing regulations.

(3) Notify minority and women's organizations, community agencies, community leaders, secondary schools and colleges, of company policy, preferably in writing.

(5) When employees are pictured in consumer or help wanted advertising, both minorities and nonminority men and women should be shown.

(6) Send written notification of company policy to all subcontractors, vendors and suppliers requesting appropriate action on their part.

#### § 60-2.22 Responsibility for implementation.

(a) An executive of the contractor should be appointed as director or manager of company Equal Opportunity Programs. Depending upon the size and geographical alignment of the company, this may be his or her sole responsibility. He or she should be given the necessary top management support and staffing to execute the assignment. His or her identity should appear on all internal and external communications on the company's Equal Opportunity Programs. His or her responsibilities should include, but not necessarily be limited to:

(1) Developing policy statements, affirmative action programs, internal and external communication techniques.

(14) No formal techniques established for evaluating effectiveness of EEO programs.

(15) Lack of access to suitable housing inhibits recruitment efforts and employment of qualified minorities.

(16) Lack of suitable transportation (public or private) to the work place inhibits minority employment.

(17) Labor unions and subcontractors not notified of their responsibilities.

(18) Purchase orders do not contain EEO clause.

(19) Posters not on display.

#### **§ 60-2.24 Development and execution of programs.**

(a) The contractor should conduct detailed analyses of position descriptions to insure that they accurately reflect position functions, and are consistent for the same position from one location to another.

(b) The contractor should validate worker specifications by division, department, location or other organizational unit and by job category using job performance criteria. Special attention should be given to academic, experience and skill requirements to insure that the requirements in themselves do not constitute inadvertent discrimination. Specifications should be consistent for the same job classification in all locations and should be free from bias as regards to race, color, religion, sex, or national origin, except where sex is a bona fide occupational qualification. Where requirements screen out a disproportionate number of minorities or women such requirements should be professionally validated to job performance.

(c) Approved position descriptions and worker specifications, when used by the contractor, should be made available to all members of management involved in the recruiting, screening, selection, and promotion process. Copies should also be distributed to all recruiting sources.

(d) The contractor should evaluate the total selection process to insure freedom from bias and, thus, aid the attainment of goals and objectives.

(1) All personnel involved in the recruiting, screening, selection, promotion, disciplinary, and related processes should be carefully selected and trained to insure elimination of bias in all personnel actions.

(2) The contractor shall observe the requirements of the OFCC Order pertaining to the validation of employee tests and other selection procedures.

(3) Selection techniques other than tests may also be improperly used so as to have the effect of discriminating against minority groups and women. Such techniques include but are not restricted to, unscored interviews, unscored or casual application forms, arrest records, credit checks, considerations of marital status or dependency or minor children. Where there exist data suggesting that such unfair discrimination or exclusion of minorities or women exists, the contractor should analyze his unscored procedures and eliminate them if they are not objectively valid.

(e) Suggested techniques to improve recruitment and increase the flow of minority or female applicants follow:

(1) Certain organizations such as the Urban League, Job Corps, Equal Opportunity Programs, Inc., Concentrated Employment Programs, Neighborhood Youth Corps, Secondary Schools, Colleges, and City Colleges with high minority enrollment, the State Employment Service, specialized employment agencies, Aspira, LULAC, GERR, the G.I. Forum, the Commonwealth of Puerto Rico are normally prepared to refer minority applicants. Organizations prepared to refer women with specific skills are: National Organization for Women, Welfare Rights Organizations, Women's Equity Action League, Talent Bank from Business and Professional Women (including 28 women's organizations), Professional Women's Caucus, Intercollegiate Association of University Women, Negro Women's sororities and service

groups such as Delta Sigma Theta, Alpha Kappa Alpha, and Zeta Phi Beta; National Council of Negro Women, American Association of University Women, YWCA, and sectarian groups such as Jewish Women's Groups, Catholic Women's Groups and Protestant Women's Groups, and women's colleges. In addition, community leaders as individuals shall be added to recruiting sources.

(2) Formal briefing sessions should be held, preferably on company premises, with representatives from these recruiting sources. Plant tours, presentations by minority and female employees, clear and concise explanations of current and future job openings, position descriptions, worker specifications, explanations of the company's selection process, and recruiting literature should be an integral part of the briefings. Formal arrangements should be made for referral of applicants, followup with sources, and feedback on disposition of applicants.

(3) Minority and female employees, using procedures similar to subparagraph (2) of this paragraph, should be actively encouraged to refer applicants.

(4) A special effort should be made to include minorities and women on the Personnel Relations staff.

(5) Minority and female employees should be made available for participation in Career Days, Youth Motivation Programs, and related activities in their communities.

(6) Active participation in "Job Fairs" is desirable. Company representatives so participating should be given authority to make on-the-spot commitments.

(7) Active recruiting programs should be carried out at secondary schools, junior colleges, and colleges with predominant minority or female enrollments.

(8) Recruiting efforts at all schools should incorporate special efforts to reach minorities and women.

(9) Special employment programs should be undertaken whenever possible. Some possible programs are:

(i) Technical and nontechnical co-op programs with predominately Negro and women's colleges.

(ii) "After school" and/or work-study jobs for minority youths, male and females.

(iii) Summer jobs for underprivileged youth, male and female.

(iv) Summer work-study programs for male and female faculty members of the predominantly minority schools and colleges.

(v) Motivation, training and employment programs for the hard-core unemployed, male and female.

(10) When recruiting brochures pictorially present work situations, the minority and female members of the work force should be included, especially when such brochures are used in school and career programs.

(11) Help wanted advertising should be expanded to include the minority news media and women's interest media on a regular basis.

(f) The contractor should insure that minority and female employees are given equal opportunity for promotion. Suggestions for achieving this result include:

(1) Post or otherwise announce promotional opportunities.

(2) Make an inventory of current minority and female employees to determine academic, skill and experience level of individual employees.

(3) Initiate necessary remedial, job training and workstudy programs.

(4) Develop and implement formal employee evaluation programs.

(5) Make certain "worker specifications" have been validated on job performance related criteria. (Neither minority nor female employees should be required to possess higher qualifications than those of the lowest qualified incumbent.)

(6) When apparently qualified minority or female employees are passed over for upgrading, require supervisory personnel to submit written justification.

(7) Establish formal career counseling programs to include attitude development, education aid, job rotation, buddy system and similar programs.

(8) Review seniority practices and seniority clauses in union contracts to insure such practices or clauses are non-discriminatory and do not have a discriminatory effect.

(9) Make certain facilities and company-sponsored social and recreation activities are desegregated. Actively encourage all employees to participate.

(h) Encourage child care, housing and transportation programs appropriately designed to improve the employment opportunities for minorities and women.

**§ 60-2.25 Internal audit and reporting systems.**

(a) The contractor should monitor records of referrals, placements, transfers, promotions and terminations at all levels to insure nondiscriminatory policy is carried out.

(b) The contractor should require formal reports from unit managers on a schedule basis as to degree to which corporate or unit goals are attained and timetables met.

(c) The contractor should review report results with all levels of management.

(d) The contractor should advise top management of program effectiveness and submit recommendations to improve unsatisfactory performance.

**§ 60-2.26 Support of action programs.**

(a) The contractor should appoint key members of management to serve on Merit Employment Councils, Community Relations Boards and similar organizations.

(b) The contractor should encourage minority and female employees to participate actively in National Alliance of Businessmen programs for youth motivation.

(c) The contractor should support Vocational Guidance Institutes, Vestibule Training Programs and similar activities.

(d) The contractor should assist secondary schools and colleges in programs designed to enable minority and female graduates of these institutions to compete in the open employment market on a more equitable basis.

(e) The contractor should publicize achievements of minority and female employees in local and minority news media.

(f) The contractor should support programs developed by such organizations as National Alliance of Businessmen, the Urban Coalition and other organizations concerned with employment opportunities for minorities or women.

#### **Subpart D—Miscellaneous**

##### **§ 60-2.30 Use of goals.**

The purpose of a contractor's establishment and use of goals is to insure that he meet his affirmative action obligation. It is not intended and should not be used to discriminate against any applicant or employee because of race, color, religion, sex, or national origin.

##### **§ 60-2.31 Preemption.**

To the extent that any State or local laws, regulations or ordinances, including those which grant special benefits to persons on account of sex, are in conflict with Executive Order 11246, as amended, or with the requirements of this part, we will regard them as preempted under the Executive order.

##### **§ 60-2.32 Supersedeure.**

(No. 21) D-1

REVISED ORDER NO. 14 ESTABLISHING NEW STANDARDIZED CONTRACTOR  
EVALUATION PROCEDURES FOR NONCONSTRUCTION CONTRACTORS  
(OFFICIAL TEXT)

U. S. DEPARTMENT OF LABOR  
Office of the Secretary  
Washington

ORDER NO. 14 (Revised)

TO: HEADS OF ALL AGENCIES

FROM: Secretary of Labor

SUBJECT: Establishment of New Standardized Contractor  
Evaluation Procedures for Nonconstruction  
Contractors

1. Purpose:

To establish new, standardized contractor evaluation procedures.

2. Background:

(a) Each prime contractor or subcontractor with 50 or more employees and a contract of \$50,000 or more is required to develop a written affirmative action program for each of its establishments. (41 CFR 60-1.40)

(b) The analysis must relate to all major job classifications at each facility to which the AAP pertains, with explanations if minorities or women are currently being underutilized in any job classification. (41 CFR 60-2.11, 60-2.33)

(c) An acceptable affirmative action program must include an analysis of areas within which the contractor is deficient in the utilization of minority groups and women and, further, where deficiencies exist, goals and timetables to which the contractor's good faith efforts must be directed and, thus to increase materially the utilization of minorities and women at all levels and in all segments of his work force. (41 CFR 60-2.10)

3. Action:

(a) A contractor evaluation should proceed in two basic steps: (i) an off-site review of the contractor's affirmative action program and utilization analysis, using the enclosed Contractor Evaluation Checklist (Attachment A) as a worksheet; and (ii) where necessary, an on-site discussion and review of those matters which are not fully or satisfactorily addressed in the affirmative action plan and utilization analysis using the enclosed On-site Review Guidelines (Attachment B) as a worksheet.

Using approved methods of priority selection, compliance agencies shall routinely request from Federal contractors within their jurisdiction Affirmative Action Programs including the required analysis and support data, as provided in the enclosed sample notification letter. Any other letter conforming to your agency procedures under Order 14 may be used. As used throughout this Order, the term "Affirmative Action Plan (AAP) and supporting documentation" includes:

(i) A copy of the contractor's last EEO-1 Report.

(ii) The contractor's most recent workforce statistics available by major job classification and by race and sex.

(iii) The contractor's evaluation of the inside and outside workforce availability as outlined in 41 CFR 60-2.11.

(iv) Identification of areas of under-utilization and establishment of goals and timetables to correct any deficiencies together with a plan of action to achieve such goals and timetables.

(v) Assessment of the contractor's current workforce to identify affected class situations and plans to correct such identified situations. (This may be submitted as part of the contractor's AAP or as a separate document. In either case, as discussed below, it will be received in confidence by the compliance officer and returned to the contractor, without having been duplicated, at the conclusion of the review.)

(vi) Information relative to:

-- The reaffirmation of the contractor's EEO policy.

-- Dissemination and implementation of the policy.

-- A description of the contractor's internal audit reporting systems.

-- Substantiation of the compliance of the contractor's personnel policies and practices with the Sex Discrimination Guidelines (41 CFR 60-20).

-- Description of the contractor's support of community action programs.

-- Substantiation of the contractor's consideration of minorities and women not currently in the workforce having requisite skills.

(vii) Summary data on applicant flow, hires, terminations, promotions, and training for the last 6 months or the last 100 applicants, hires, etc., whichever is less.

In any letter utilized to obtain data for off-site review, you may only request the affirmative action program including the required analysis and support data. Contractors are free to respond to this according to their current procedures under Order No. 4. This first letter is not to contain a request for specific items or for formats unless the compliance officer affirmatively determines that a particular item is necessary for this particular establishment. The off-site review must include Part A of the contractor evaluation checklist. This consists of data absolutely essential to a determination of the acceptability of the contractor AAP. The agency may complete Part B of the Contractor Evaluation Checklist or decide to have such material for an on-site review where appropriate.

(b) If it is determined that the contractor's analysis is inadequate within the meaning of Executive Order 11246, as amended, and implementing rules, regulations and orders, the compliance officer shall notify the contractor of that fact and request appropriate additional information. If the contractor fails to meet this request within 30 days, a show cause notice will be issued. If the contractor fails to complete an adequate analysis, the enforcement procedures specified in OFCC Order 4, 41 CFR 60-2.2 (c) shall be applicable.

Such requests need not be limited only to those establishments already determined for a possible on-site investigation. Contractors who have received agreement with their respective compliance agencies on nationwide AAP formats or on frequency of updating statistics may continue to do so. Where on-site investigations are considered appropriate, a second letter advising the contractor of this judgment should be sent.

They shall be conducted as soon as practicable at a time agreeable to the agency and the contractor, but no later than 45 days from the time of the request for the Affirmative Action Plan and supporting data.

After reviewing the Affirmative Action Program and supporting data, the compliance agency will make a determination as to whether or not an on-site visit is appropriate. The attachments hereto afford guidance as to the methodology to be followed. After analysis of the Affirmative Action Plan and supporting data and prior to the actual on-site visit, additional data necessary to complete the Contractor Evaluation Checklist (Attachment A) may be requested.

Following receipt of the above information, data should be analyzed along with any files available relative to previous compliance reviews and complaint investigations. The appropriate office of the Equal Employment Opportunity Commission and state and city agencies should be consulted for the status of any current charges.

To aid in the analysis, much material is available and continuously being developed by the Bureau of the Census, Bureau of Labor Statistics, Bureau of Employment Security, Chamber of Commerce and many other resources which should be part of a reference library in all contract compliance offices.

In the interests of an expeditious off-site review, the agency may limit its request to those parts of the contractor's AAP and supporting data necessary to complete Part A of the Contractor Evaluation Checklist. This consists of data absolutely essential to a determination of the acceptability of the contractor's AAP.

If the agency desires to do a more thorough off-site review, it may also request the additional data necessary to complete Part B of the Contractor Evaluation Checklist or it may decide to leave such material to an on-site review where appropriate.

If the contractor fails to provide the material requested within 30 days of the request, a show cause notice is to be issued and a determination of non-responsibility may be made by the contracting officer pursuant to 41 CFR 60-2.2.

(c) If it is determined that the contractor's AAP and supporting data are insufficient to satisfactorily respond to the Contractor Evaluation Checklist (either Part A or B, or both), the compliance officer shall notify the contractor of that fact and request such additional information as the compliance officer needs to complete the checklist. If the contractor fails to meet this request within 30 days, other than (i) because of a claim of confidentiality as discussed below, or (ii) because the type or volume of data requested is best reviewed on site, a show cause notice will be issued and a determination of non-responsibility may be made by the contracting officer.

(d) The failure to develop an acceptable affirmative action program as required in 41 CFR Parts 60-1 and 60-2 or the substantial deviation from a previously approved AAP constitute the only grounds upon which a summary determination of non-responsibility may be made. See 41 CFR § 60-2.2; Sec. 718 of Title VII, as amended. Other allegations of non-compliance with Executive Order 11246 (as amended) and its implementing rules and regulations may give rise to the imposition of sanctions against a contractor only after the procedures in 41 CFR § 60-1.26 have been followed.

(e) Following an audit of the affirmative action plan and supporting documentation, the agency must make a determination as to whether or not an on-site review of the establishment is appropriate. If a decision is made to schedule an on-site review, a second letter advising the contractor of this judgment must be sent (Attachment C, Letter II).

If a decision is made not to schedule a review, the contractor must be so informed (Attachment C, Letter I).

At the same time, the agency should also inform the contractor that his affirmative action plan has been found acceptable without the necessity for an on-site review. No other determination of compliance status can be made without the additional analysis and investigation of an on-site review. However, an on-site review conducted within the previous 12 months may serve as the basis for a compliance certification as set forth in 41 CFR 60-1.20 (d). Whenever possible, the compliance officer should then outline problems highlighted during the desk audit or state that no major problems were raised.

If an on-site review is necessary, additional data keyed to the deficiencies observed in the contractor's AAP and the Contractor Evaluation Checklist will be needed during the on-site review process in order to make a determination of compliance with the Executive Order.

Each agency is authorized to request from specific contractors such advance information which could reasonably be supplied prior to the actual on-site visit. However, the contractor should be requested to furnish only the specific items of information which the compliance officer affirmatively determines are:

1. Necessary for conducting the review and completing the Standard Compliance Review Report;
2. Not contained in the material submitted by the contractor;
3. Not available or able to be derived from other material submitted by the contractor.

The items requested should provide the compliance officer with the information he or she needs for the review. However, no information may be requested unless the three criteria above are met. In some cases needed information is best made available on the site. In those cases, the contractor should be advised to have the information ready for the on-site review.

This additional data should be such that could be adequately analyzed in the agency's office in order to expedite the actual visit to the facility. In all cases, if and only if the issue addressed is one which is appropriate to the industry and contractor site being visited, the kind of data which is identified in the On-Site Review Guidelines as being necessary for specific portions of the investigative process, must be requested and analyzed, either prior to the visit, or on-site if not supplied in the Affirmative Action Program or available from other contractor supplied information. Certain data is noted in the On-Site Review Guidelines as being necessary for proper analysis of specific issues. Where the decision is made to reserve the analysis of the data pending the on-site visit, the contractor should be informed reasonably ahead of the scheduled visit as to what information will be required during the review, so that he may have the pertinent data available for the compliance officer at that time.

In order to pursue certain issues uncovered in the compliance review, it may be necessary for the compliance officer to request certain additional information on-site even though such data have not been previously identified. Such additional information must also meet the above criteria.

There is no specific format for the second letter, and the compliance officers may use any form which conforms to their particular needs and to the specific industry and contractor establishment being reviewed. In no case shall a determination of compliance status be made without an on-site visit.

#### 4. Disclosure and Review of Contractor Data:

(a) Confidential information such as lists of employees, employee names, pay data, reason for termination, may properly be excluded by the contractor from material submitted prior to an on-site visit if the contractor is concerned with the confidentiality of such data.

In all cases, compliance officers must be permitted access to data needed to complete the on-site visit consistent with the On-Site Review Guidelines.

(b) Review and disclosure of data should be governed by three basic principles:

(i) The contractor must provide full access to data on-site, as required by 41 CFR 60-1.43, unless he shows that data sought to be reviewed is not pertinent to compliance with the Executive Order.

(ii) Only summary data of a non-sensitive nature should be provided for review off-site, unless the agency is able to show after on-site review that he requires further detailed data off-site in order to conduct an effective review, or for purposes of enforcement.

(iii) Contractor data which is particularly sensitive (names, rates of pay, reasons for termination, etc.) should be limited to on-site review.

Whenever it is determined that detailed data is to be taken off-site, the contractor may protect the confidentiality of such data as follows:

(i) The contractor and the agency may agree that the data is to be considered on loan to the compliance agency for purposes of the review and the data is not to be considered in the custody of the agency.

(ii) The data shall be returned to the contractor whenever the agency concludes that the contractor is in compliance or the enforcement procedure concludes.

Disputes between the agency and the contractor over the right of access to data, the extent of data to be provided off-site, or the treatment of company sensitive data should be referred to the Office of the Solicitor of the Department of Labor for a ruling.

(c) Corrective Action Programs directed at identified affected class situations, whether separately documented or prepared as part of an affirmative action program, shall remain the sole property of the contractor whether surrendered to the agency on or off premises for review. Such programs should not be duplicated by the agency and shall be returned intact to the contractor immediately following but not until a determination that they are no longer necessary in connection with a review of the contractor's EEO posture. Contractors should be told that the contents of their Corrective Action Program will be regarded at all times as having been received in confidence and its contents shall not be disclosed except as required during proceedings instituted pursuant to OFCC regulations 41 CFR §60-1.26.

#### 5. Employee Interviews:

The compliance officer may request, where appropriate, that the contractor make available a reasonable number of selected minority or women employees for interviews to assist in a determination of whether employees are being fairly treated by the contractor or whether such employees believe they are being or have been unlawfully discriminated against in initial placement, subsequent upgrading or promotion, or other terms and conditions of employment. The number, scope and manner of conducting such interviews should be discussed in advance with the contractor. If the contractor appears reluctant to interview on the job, or for other reasons, the compliance officer should conduct such interviews off the premises.

#### 6. Post Review Analysis:

##### (a) Summary of Deficiencies

(i) List deficiencies if any noted in the previous on-site review and any corrective actions that have ensued.

(ii) List any general deficiencies of the contractor's affirmative action programs.

(iii) List current specific deficiencies if any as determined through the on-site review.

##### (b) Discussion of Remedies

Deficiencies requiring more than obvious simple corrective actions should be discussed with the contractor. For example, matters affecting any relief required for victims of discrimination, e.g., seniority system modifications where appropriate, etc.; should be carefully reviewed with the contractor and reduced to writing.

#### 7. Contractor Notification and Conciliation:

Upon completion of the on-site review, the compliance officer should schedule an exit conference with contractor officials to review, to the extent possible, the findings from the review. Unless the review is of a very small facility with few and minor deficiencies uncovered, an exit conference should not try to itemize all deficiencies until the post review analysis is completed. Upon completion of the post review analysis, the findings of the review and the list of deficiencies or recommendations shall be submitted to the contractor in writing and if practicable, delivered in person to lay the foundation for any necessary conciliation of efforts. Should the contractor disagree with the findings of the review or feel that he is unable to comply, he may request a conciliation meeting which shall be scheduled by the agency as soon as practical, but may not be used to delay enforcement of the Executive Order.

The contractor may at any time avail himself of the provisions of 41 CFR § 60-1.24(c) (4) which provides as follows:

"When a prime contractor or subcontractor, without a hearing, shall have complied with the recommendations or orders of an agency or the Director and believes such recommendations or orders to be erroneous, he shall, upon filing a request therefor within ten days of such compliance, be afforded an opportunity for a hearing and review of the alleged erroneous action by the agency or the Director."

#### 8. Time Schedule for Completion:

Within 45 days from the date of the actual initiation of the on-site investigation, if one is conducted, or any extension of such period granted by the compliance agency for good cause, including an opportunity for the contractor to avail himself of conciliation as above, the contractor must either be found in compliance by the compliance agency, or must have been issued a 30-day show cause notice as required under the rules and regulations pursuant to the Executive Order.

During this period, the compliance agency is obligated to:

1. Complete the on-site review.
2. Notify the contractor of any deficiencies found or recommendations (see above).
3. Undertake any initial conciliation or clarification discussions with the contractor that may be appropriate.
4. Notify the contractor of compliance or issue a 30-day show cause order.
5. Complete and forward the Coding Sheet to OFCC.

A contractor's affirmative action plan may be accepted only after the Coding Sheet has been forwarded to OFCC.

Before each on-site compliance review the compliance officer will complete the Coding Sheet as indicated. During and after the on-site visit the remainder of the Coding Sheet will be completed. All completed Coding Sheets will be forwarded to the Director, OFCC. No compliance review can be considered complete until the Coding Sheet is forwarded to OFCC, and Monthly Reports to OFCC will reflect that fact. In addition, all Coding Sheets are to be forwarded to OFCC within 45 days after an on-site visit. Attachments

**SAMPLE LETTER -- NOTIFICATION OF  
COMPLIANCE AUDIT**

Dear Contractor:

Your facility located at \_\_\_\_\_ has been selected for a desk audit regarding the requirements of Executive Order 11246, as amended, and OFCC Regulations 41 CFR Parts 60-1 and 60-2. **PART A - Essential Data**

**A. Section 60-2.11, Required Utilization Analysis**

The requirements of Section 60-2.11 are as follows:

(a) An analysis of all major job classifications at the facility, with explanation if minorities or women are currently being underutilized in any one or more job classifications (job "classification" herein meaning one or a group of jobs having similar content, wage rates and opportunities). "Underutilization" is defined as having fewer minorities or women in a particular job classification than would reasonably be expected by their availability. In making the work force analysis, the contractor shall conduct such analysis separately for minorities and women.

(1) In determining whether minorities are being underutilized in any job classification the contractor will consider at least all of the following factors:

- (i) The minority population of the labor area surrounding the facility;
- (ii) The size of the minority unemployment force in the labor area surrounding the facility;
- (iii) The percentage of the minority work force as compared with the total work force in the immediate labor area;

(iv) The general availability of minorities having requisite skills in the immediate labor area;

(v) The availability of minorities having requisite skills in an area in which the contractor can reasonably recruit;

(vi) The availability of promotable and transferable minorities within the contractor's organization;

(vii) The existence of training institutions capable of training persons in the requisite skills; and

(viii) The degree of training which the contractor is reasonably able to undertake as a means of making all job classes available to minorities.

(2) In determining whether women are being underutilized in any job classification, the contractor will consider at least all of the following factors:

(i) The size of the female unemployment force in the labor area surrounding the facility;

(ii) The percentage of the female work force as compared with the total work force in the immediate labor area;

(iii) The general availability of women having requisite skills in the immediate labor area;

(iv) The availability of women having requisite skills in an area in which the contractor can reasonably recruit;

(v) The availability of women seeking employment in the labor or recruitment area of the contractor;

(vi) The availability of promotable and transferable female employees within the contractor's organization;

(vii) The existence of training institutions capable of training persons in the requisite skills; and

(viii) The degree of training which the contractor is reasonably able to undertake as a means of making all job classes available to women.

B.	Section 60-2.25, Internal Audit and Reporting System				B.	Workforce Analysis
1.	Is there evidence that the contractor monitors its affirmative action program?	___	___	___	If an adequate workforce analysis was not furnished during the off-site review, the compliance officer should ask to see, if available, the employer's representation report of his workforce summarizing the facility workforce (total, male, female, and male and female for each minority group comprising 2 percent or more of the labor area) by department or organization (i.e., a logical cohesive group such as personnel, manufacturing, finance, etc.) and by EEO-1 category within organization subdivided into (perhaps common) job groupings within an EEO-1 category. These job groupings should reflect one or more jobs having similar content, wage rates and opportunities. The job groupings should be ranked appropriately by skill or earnings or line of progression, or existing administrative practice. If earnings are used, the range of annual earnings for each grouping should be given. However, the purpose of these Guidelines and in all cases where pay is used, alphabetic or numeric coding or the use of an index of pay and pay ranges is acceptable and should be used when contractors are concerned about confidentiality of salary information.	
2.	Does the contractor require formal reports from managers on the accomplishment of goals?	___	___	___		
3.	Is top management aware of the progress of the EO program?	___	___	___		
F.	Section 60-2.26, support of Action Programs				C.	Recruitment, Hiring, Selection and Placement
1.	Is the contractor management involved in external affirmative action programs?	___	___	___	(a) If adequate applicant flow data was not furnished during the off-site review, the compliance officer should ask to see the contractor's applicant flow report summarizing total applicants by total, male, female, and male and female minority classifications. While in many cases applicants are not classified by particular job, it should be possible to provide some separation of the applicant flow count into at least broad occupation groups. An applicant is defined as one who has applied for permanent employment and has complied with the company's formal application procedure. Next the report should show the number of offers of employment for each category and by total, male, female and male and female minority classifications. The report should show acceptance of offers for each category and by total, male, female and male and female minority classifications. The acceptances should also be related to the job groupings outlined in Section B, Workforce Analysis. This report should reflect applicant activity for the last six months or the last 100 acceptances, whichever is less.	
2.	Are employees encouraged to participate in outside organizations?	___	___	___		
3.	Does the contractor support outside training programs?	___	___	___		
4.	Does the contractor support schools in order to assist minorities and females?	___	___	___		
5.	Does the contractor publicize EO achievements?	___	___	___		
6.	Does the contractor support organizations such as NAB, etc?	___	___	___		
G.	Section 60-2.13, Additional Ingredients of AAP					
1.	Has the contractor provided evidence to support the fact that the contractor is abiding by the Sex Discrimination Guidelines (41 CFR Part 60-20)?	___	___	___		
2.	Is there evidence that the contractor is considering minorities and women not in the work force?	___	___	___		
H.	Explain contractor's performance against previous goals: _____					

(b) Where such a summary report is not available, the compliance officer should advise the contractor to maintain such data in the future, but the following collection of data should now be made to determine any problems that may exist in applicant flow and employment ratios. If the company's own data is insufficient, the CCO should obtain applications of 100 applicants for blue collar employment and 100 applicants for white collar employment, or applications for a six (6) month period, whichever is the lesser. He may use a random sample or an immediate past chronological period. He may exclude certain job groupings where applicants and hires are clearly not a problem and should be sure to include the job groupings cited by you in Section 1, above. Now he should construct the report described in the paragraph above showing applicants, offers and acceptances by total, male and female, and male and female minority classifications by as much organization job grouping detail as possible.

(c) Sample a representative number of job requisitions on a given date and compare with minorities and women applying at the same time. Obtain copies of any other forms utilized by the personnel operation such as interview reports. Even if the contractor appears to have a well-structured record-keeping system, review examples of the procedure to assure that he is in fact using the system to assure equal employment opportunity.

- |  | Yes   | No    |

(d) Is the contractor's applicant flow adequate for the job groupings cited by you in Section 1, given the utilization factors for this facility. If not, the following further investigation into recruitment methods and resources is necessary. Summarize the contractor's explanation of the specific recruitment methods and resources utilized for each job grouping involved. Explain the impact of word-of-mouth or other employee referral systems. Explain if recruitment sources are contacted in writing at the time of actual job openings and how much information is provided

to them as to the qualifications necessary. Is he actually aware of the results of his recruitment efforts? Explain if the contractor has specifically requested to have minority and women candidates among these referrals. Explain if he has discontinued using any of these sources which have failed to make such referrals. Has he instituted any transportation or housing programs to aid in minority recruitment? Describe blue collar recruitment programs if applicable. Describe in detail the job application process from the point where the applicant first makes contact with the contractor.

| 7. Does anyone monitor for disparate rejection ratios of minorities and women? Who? _____                  |       |       |
| 8. Can and does anyone challenge decisions made by the selecting officials? Please explain: _____          |       |       |
| 9. Are those who make selection conscious of the contractor's goals and timetables? Please explain: _____  |       |       |
| 10. What role does the EEO Coordinator play in the selection process? Please explain: _____                |       |       |

(e) Review a representative sample of personnel records of hires from different periods of time in various job categories.

- |  | Yes | No |
|--|-----|----|
| 1. From discussions with the interviewers and supervisors as well as from comments appearing on the application forms, what appear to be some of the more subjective criteria? Please explain: _____ |     |    |
| 2. Does the contractor claim any bona fide occupational qualifications to justify sex discrimination? Please explain: _____  |     |    |

(f) If the contractor states that the tests it uses have been validated, a written report must be available specifying size of samples used and minority and sex composition, nature of jobs, criteria, methods of analysis, and results and recommendations.

The written validation report must be reviewed to determine whether or not the test or selection practice is valid as required by the OFCC Testing Order (41 CFR 60-3).

A compliance officer who has satisfactorily completed an adequate training course should inform contractors of apparent noncompliance with the Order when validity or evidence supporting validity of tests is absent or substantially deficient. However, since the issues involved in test validity are often quite technical and complex, the compliance officer should not try to identify or resolve these issues directly with the contractor during the review. In these cases or in any case where the compliance officer cannot make a clear determination of noncompliance, the contractor's evidence of test validity is to be submitted for higher level review along with the compliance officer's analysis of the disparate effect.

#### D. Terminations

(a) If adequate data on terminations was not furnished during the off-site review, the compliance officer should ask to see, if available, the employer's report on terminations at the facility summarizing terminations for total, male, female and male and female for each appropriate minority group, by organization and by EEO-1 category, within organization subdivided into (perhaps common) job groupings within EEO-1 category. Consult Section B above Workforce Analysis, for further guidelines on job groupings.

(b) If such a summary report is not available, for a similarly statistically significant time frame as investigated for hires, review a list of terminations, by name or other identification, showing hire and termination dates, job assignment, minority group membership and sex. If possible, the terminations should be related to the period covered by the hiring analysis. To determine if there is an unfair disparity of company policies, the period of at least six (6) months or 100 such terminations should be reviewed, whichever is the lesser.

(c) If there is a disproportionate number of terminations because of minority group identification or sex, or a pattern of placement of minority group members or women to specific kinds of jobs, the causal factor should be explored and discussed.

#### E. Promotion and Transfer

(a) If adequate data on promotions and transfers was not furnished during the off-site review, the compliance officer should ask to see, if available, the employer's report on promotions at the facility summarizing promotions for total, male, female, and male and female for each appropriate minority group, by organization and by EEO-1 category within organization subdivided into (perhaps common) job groupings within EEO-1 category. Consult Section B above, Workforce Analysis, for further guidelines on job groupings. A promotion is defined as any personnel action resulting in movement to a position of greater skill, effort or responsibility. Wage or salary increases alone do not determine a promotion.

(b) If such a report is not available, the compliance officer should review a list of 100 promotions or the last six months activity, whichever is less. The review should include name or other identification, minority group status, sex, previous job, department and pay, and new job and department and pay. A promotion is defined as any personnel action resulting in movement to a position of greater skill, effort or responsibility. Wage increases alone do not determine a promotion.

(c) A determination should be made if there is a disparity between the promotion rate of minorities and women as related to the rate for non-minorities and/or males. In doing this analysis, the following procedure should be included:

Identify the various entry level positions and the promotional ladders as indicated by the contractor and by the CCO's confirmation through sample record analysis. Are these lines in any way oriented by race or sex? Please explain. With regard to promotions that are competitive, what is the significance of interest, ability and

seniority in promotion and transfer considerations? Please explain. Are there any periodic written performance ratings which influence promotion or transfer? Are minorities or women concentrated in certain jobs outside any line of progression or which dead end before the employees can reach the pay grade to which their experience, training or seniority might entitle them? Please explain. Is there a well-structured transfer program? Discuss any lack of representation of minorities and women in this program. Please explain.

(d) Review the file on transfer requests to determine if minorities or women have been overlooked or rejected disproportionately. Please summarize your findings. What is the frequency of inter- or intra-departmental transfer for better working conditions or to gain promotional opportunities? Is counseling offered to employees considering this move? How common is transfer from blue collar to white collar positions or from "traditionally female" or minority to "traditionally male" or non-minority jobs or vice versa? Who monitors promotion and transfer activity and through what means? How is job security affected by transfer or promotion and does this disproportionately affect minorities or women?

(e) Comment on the representation of minorities and women among supervisors and where promotions during the previous year suggest any improvement. If appropriate, review selected personnel records to conduct the following analysis. Explain how supervisors are selected. Who monitors these actions? Explain how supervisory ability is measured.

#### F. Wage and Salary Analysis

Review and compare wages and salaries of a sampling of minorities and women within selected job classifications. Are there positions with similar duties but with different rates of pay which seem to be related to the sex or race of the incumbents? Please explain. What is the contractor's explanation for these discrepancies? Please explain. Are there general salary ranges for jobs or specific rates at which everyone begins? Please explain. Do minority and women workers appear to be paid lower rates to begin with? Please explain. What is the contractor's explanation for this? Please explain. Who makes the determination as to what those starting rates will be? Please explain. Are the rates negotiable? Are minorities or women assigned to jobs where incentive earnings are more difficult? Please explain. Does review of any employee's records confirm or dispute the relationship of education, training, and experience to pay? Please explain. Are minorities and women supervising integrated groups? Are women supervisors generally at a lower plateau in the organization? Where minorities and women have been newly installed as supervisors, has there been any negative reaction from the workforce and how has management dealt with it? Please explain. Is there a supervisory development program? Please explain.

#### G. Training and Educational Opportunities

(a) If adequate data on training and educational opportunities was not furnished during the off-site review, the compliance officer should ask to see, if available, the employer's report on training at the facility, summarizing by training class the participation by total, male, female and male and female minority classifications and showing the training participation rate for each group. The report should reflect the last six months activity.

(b) If such a report is not available, the compliance officer should obtain from the contractor a list of various training and apprenticeship programs on going or completed during the last six months or other significant period of time, with name or other identification, minority group identification, sex of participants, date of completion and job and pay before and after training. Include employees hired directly into such programs.

(c) What types of training do new employees receive? How are additional opportunities for training and education advertised? Is there evidence of any disparate failure or dropout rate? If there is a registered apprenticeship program, has the contractor provided the Bureau of Apprenticeship and Training with an acceptable affirmative action program with goals and timetables? Is formal training being required now for jobs not previously involved? Is this discriminatory? Does the contractor publicize EO achievements? Does the contractor support organizations which

would assist his efforts and implement his affirmative action program?

H. Section 60-2. 13, Additional Ingredients of AAP

Has the contractor provided evidence to support the fact that the contractor is abiding by the Sex Discrimination Guidelines (41 CFR Part 60-20)? Is there evidence that the contractor is considering minorities and women not in the work force?

**AUTHORITY:** The provisions of this Part 60-3 are issued under secs. 201, 205, 206(a), 301, 303(a), 303(b), and 403(b) of Executive Order 11246, as amended, 30 F.R. 12319; 32 F.R. 14303; 34 F.R. 12986; § 60-1.2 of Part 60-1 of this chapter.

**§ 60-3.1 Purpose and scope.**

(a) This order is based on the belief that properly validated and standardized employee selection procedures can significantly contribute to the implementation of nondiscriminatory personnel policies, as required by Executive Order 11246, as amended. It is also recognized that professionally developed tests, when used in conjunction with other tools of personnel assessment and complemented by sound programs of job design, may significantly aid in the development and maintenance of an efficient work force and, indeed, aid in the utilization and conservation of human resource generally.

(b) (1) An examination of charges of discrimination filed with the Office of Federal Contract Compliance and an evaluation of the results of its compliance activities has revealed a decided increase in total test usage and a marked increase in testing practices which have discriminatory effects. In many cases, contractors have come to rely almost exclusively on tests as the basis for making the decision to hire, to promote, to transfer, to train, or to retain with the result that candidates are selected or rejected on the basis of test scores. Where tests are so used, minority candidates frequently experience disproportionately high rates of rejection by failing to attain score levels that have been established as minimum standards for qualification.

(2) It has also become clear that in many instances contractors are using tests as the basis for employment decisions without evidence that they are valid predictors of employee job performance.

Where evidence in support of presumed relationships between test performance and job behavior is lacking, the possibility of discrimination in the application of test results must be recognized. A test lacking demonstrated validity, i.e., having no known significant relationship to job behavior, and yielding lower scores for classes protected by Executive Order 11246, as amended, may result in the rejection of many who have necessary qualifications for successful work performance.

(c) Section 202 of Executive Order 11246, as amended, requires each Government contractor and subcontractor to take affirmative action to insure that he will not discriminate against any employee or applicant for employment because of race, color, religion, sex, or national origin. This order is designed to serve as a set of standards for contractors and subcontractors subject to Executive Order 11246, as amended, in determining whether their use of tests conforms with the requirements of the Executive Order.<sup>1</sup>

**§ 60-3.2 Test defined.**

For the purpose of this order, the term "test" is defined as any paper-and-pencil or performance measure used as a basis for any employment decision. This order applies, for example, to ability tests which are designed to measure eligibility for hire, transfer, promotion, training, or retention. This definition includes, but is not restricted to, measures of general intelligence, mental ability and learning ability; specific intellectual abilities; mechanical, clerical and other aptitudes; dexterity and coordination; knowledge and proficiency; occupational and other interests; and attitudes, personality or temperament. The term "test" also covers all other formal, scored, quantified or standardized techniques of assessing job suitability including, for example, personal history and background requirements which are specifically used as a basis for qualifying or disqualifying applicants or employees, specific educational or work history requirements, scored interviews, biographical information blanks, interviewers' rating scales and scored application forms. The term "test" shall not include other selection techniques discussed in § 60-3.13.

**§ 60-3.3 Violation of Executive order.**

A contractor regularly using a test which has adversely affected the opportunities of minority persons or women for hire, transfer, promotion, training, or retention violates Executive Order 11246, as amended, unless he can demonstrate that he has validated the test pursuant to the requirements of this part.

<sup>1</sup> Except for the necessary differences in language arising from the different legal authority of the two agencies and for reasons of clarity, this order and the Guidelines on Employee Selection Procedures, issued earlier by the Equal Employment Opportunity Commission (35 F.R. 12333, Aug. 1, 1970) are intended to impose the same basic requirements on persons and contractors covered by each of them.

#### § 60-3.4 Evidence of validity; meaning of technically feasible.

(a) Each contractor using tests to select from among candidates for hire, transfer, promotion, training, or retention shall have available for inspection evidence that the test is being used in a manner which does not violate § 60-3.3.

(b) Where technically feasible, a test should be validated for each minority group with which it is used; that is, any differential rejection rates that may exist, based on a test, must be relevant to performance on the jobs in question.

(c) The term "technically feasible" as used in paragraph (b) of this section and elsewhere in this part means having or obtaining a sufficient number of minority individuals to achieve findings of statistical and practical significance, the opportunity to obtain unbiased job performance criteria, etc. It is the responsibility of the persons claiming absence of technical feasibility to demonstrate evidence of this absence.

(1) Evidence of a test's validity should consist of empirical data demonstrating that the test is predictive of or significantly correlated with important elements of work behavior which comprise or are relevant to the job or jobs for which candidates are being evaluated.

(2) If job progression structures and seniority provisions are so established that new employees will probably, within a reasonable period of time and in a great majority of cases, progress to a higher level, it may be considered that candidates are being evaluated for jobs at that higher level. However, where job progression is not so nearly automatic, or the time span is such that higher level jobs or employees' potential may be expected to change in significant ways, it shall be considered that candidates are being evaluated for a job at or near the entry level. This point is made to underscore the principle that attainment of or performance at a higher level job is a relevant criterion in validating employment tests only when there is a high probability that persons employed will in fact attain that higher level job within a reasonable period of time.

(3) Where a test is to be used in different units of a multiunit organization and no significant differences exist between units, jobs, and applicant populations, evidence obtained in one unit may suffice for the others. Similarly, where the validation process requires the collection of data throughout a multiunit organization, evidence of validity specific to each unit may not be required. There may also be instances where evidence of validity is appropriately obtained from other companies in the same industry. Both in this instance and in the use of data collected throughout a multiunit organization, evidence of validity specific to each unit or company may not be required provided that no significant differences exist between companies, units, jobs, and applicant populations.

#### § 60-3.5 Minimum standards for validation.

(a) For the purpose of satisfying the requirements of this part, empirical evi-

dence in support of a test's validity must be based on studies employing generally accepted procedures for determining criterion-related validity, such as those described in "Standards for Educational and Psychological Tests and Manuals," published by the American Psychological Association, 1200 17th Street NW., Washington, DC 20036. Evidence of content or construct validity, as defined in that publication, may also be appropriate where criterion-related validity is not feasible. However, evidence for content or construct validity should be accompanied by sufficient information from job analyses to demonstrate the relevance of the content, in the case of job knowledge or proficiency tests, or the construct, in the case of trait measures. Evidence of content validity alone will be acceptable for well-developed tests that consist of suitable samples of the essential knowledge, skills or behaviors composing the job in question. The types of knowledge, skills or behaviors contemplated here do not include those which can be acquired in a brief orientation to the job. In the case of personal history, background, educational, and work history requirements which are specifically used as a basis for qualifying or disqualifying applicants (see § 60-3.2), evidence of content or construct validity may be sufficient.

(b) Although any appropriate validation strategy may be used to develop such empirical evidence, the following minimum standards, as applicable, must be met in the research approach and in the presentation of results which constitute evidence of validity:

(1) Where a validity study is conducted in which tests are administered to applicants, with criterion data collected later, the sample of subjects must be representative of the normal or typical candidates group for the job or jobs in question. This further assumes that the applicant sample is representative of the minority population available for the job or jobs in question in the local labor market. Where a validity study is conducted in which tests are administered to present employees, the sample must be representative of the minority groups currently included in the applicant population. If it is not technically feasible to include minority employees in validation studies conducted on the present work force, the conduct of a validation study without minority candidates does not relieve any contractor of his subsequent obligation for validation when inclusion of minority candidates becomes technically feasible.

(2) Tests must be administered and scored under controlled and standardized conditions, with proper safeguards to protect the security of test scores and to insure that scores do not enter into any judgments of employee adequacy that are to be used as selection measures.

(3) The work behavior or other criteria of employee adequacy which the test is intended to predict or identify must be fully described; and, additionally, in the case of rating techniques, the appraisal form(s) and instructions to the rater(s) must be included as a part of the validation evidence. Such criteria

may include measures other than actual work proficiency, such as training time, supervisory ratings, regularity of attendance and tenure. Whatever criteria are used they must represent major or critical work behaviors as revealed by careful job analyses.

(4) In view of the possibility of bias inherent in subjective evaluations, supervisory rating techniques should be carefully developed, and the ratings should be closely examined for evidence of bias. In addition, minorities or women might obtain unfairly low performance criterion scores for reasons other than supervisors' prejudice, as, when, as new employees, they have had less opportunity to learn job skills. In general, all criteria must be examined to ensure freedom from factors which would unfairly depress the scores of minority groups or women.

(5) Data must be generated and results separately reported for minority and nonminority groups wherever technically feasible. Where a minority group is sufficiently large to constitute an identifiable factor in the local labor market, but validation data have not been developed and presented separately for that group, evidence of satisfactory validity based on other groups will be regarded as only provisional compliance with this order pending separate validation of the test for the minority group in question (see § 60-3.9). A test which is differentially valid may be used in groups for which it is valid but not for those in which it is not valid. In this regard, where a test is valid for two groups but one group characteristically obtains higher test scores than the other without a corresponding difference in job performance, test results must be applied so as to predict the same probability of job success in both groups.

(c) In assessing the utility of a test the following considerations will be applicable:

(1) The relationship between the test and at least one relevant criterion must be statistically significant. This ordinarily means that the relationship should be sufficiently high as to have a probability of no more than 1 to 20 to have occurred by chance. However, the use of a single test as the sole selection device, when that test is valid against only one component of job performance, will be scrutinized closely.

(2) In addition to statistical significance, the practical significance of the relationship between the test and criterion should also be considered. The magnitude of the relationship needed for practical significance or usefulness is affected by several factors, including:

(i) The larger the proportion of applicants who are hired for or placed on the job, the higher the relationship needs to be in order to be practically useful. Conversely, a relatively low relationship may prove useful when proportionately few job vacancies are available;

(ii) The larger the proportion of applicants who become satisfactory employees when not selected on the basis of the test, the higher the relationship needs to be between the test and a criterion of job success for the test to be practically

useful. Conversely, a relatively low relationship may prove useful when proportionately few applicants turn out to be satisfactory;

(iii) The smaller the economic and human risks involved in hiring an unqualified applicant relative to the risks entailed in rejecting a qualified applicant, the greater the relationship needs to be in order to be practically useful. Conversely, a relatively low relationship may prove useful when the former risks are relatively high.

#### **§ 60-3.6 Presentation of evidence of validity.**

The presentation of the results of a validation study must include statistical and, where appropriate, graphic representations of the relationships between the test and the criteria, permitting judgments of the test's utility in making predictions of future work behavior. (See § 60-3.5(c), concerning assessing utility of a test.) Average scores for all tests and criteria must be reported for all relevant subgroups, including minority and non-minority groups where differential validation is required. Whenever statistical adjustments are made in validity results for less than perfect reliability or for restriction of score range in the test or the criterion, or both, the supporting evidence from the validation study must be presented in detail. Furthermore, for each test that is to be established or continued as an operational employee selection instrument, as a result of the validation study, the minimum acceptable cutoff (passing) score, if any, on the test must be reported. It is expected that each operational cutoff score will be reasonable and consistent with normal expectations of proficiency within the work force or group on which the study was conducted.

#### **§ 60-3.7 Use of other validity studies.**

In cases where the validity of a test cannot be determined pursuant to §§ 60-3.4 and 60-3.5 (e.g., the number of subjects is less than that required for a technically adequate validation study, or an appropriate criterion measure cannot be developed), evidence from validity studies conducted in other organizations, such as that reported in test manuals and professional literature, may be considered acceptable when: (a) The studies pertain to jobs which are comparable (i.e., have basically the same task elements), and (b) there are no major differences in contextual variables or sample composition which are likely to affect significantly validity. Any contractor citing evidence from other validity studies as evidence of test validity for his own jobs must demonstrate that he meets requirements in paragraphs (a) and (b) of this section.

#### **§ 60-3.8 Assumption of validity.**

(a) Under no circumstances will the general reputation of a test, its author or its publisher, or casual reports of test utility be accepted in lieu of evidence of validity. Specifically ruled out are: Assumptions of validity based on test

names or descriptive labels; all forms of promotional literature; data bearing on the frequency of a test's usage; testimonial statements of sellers, users, or consultants; and other nonempirical or anecdotal accounts of testing practices or testing outcomes.

(b) Although professional supervision of testing activities may help greatly to insure technically sound and nondiscriminatory test usage, such involvement alone shall not be regarded as constituting satisfactory evidence of test validity.

#### **§ 60-3.9 Continued use of tests.**

Under certain conditions where validation is required by this order, a contractor may be permitted to continue the use of a test which is not at the moment fully supported by the required evidence of validity. If, for example, evidence of criterion-related validity in a specific setting is technically feasible and required but not yet obtained, the use of the test may continue: *Provided:* (a) The contractor can cite substantial evidence of validity as described in § 60-3.7 (a) and (b); and (b) he has in progress validation procedures which are designed to produce, within a reasonable time, the additional data required. It is expected also that the contractor may have to alter or suspend test cutoff scores so that score ranges broad enough to permit the identification of criterion-related validity will be obtained.

#### **§ 60-3.10 Employment agencies and state employment services.**

A contractor utilizing the services of any private employment agency, state employment agency or any other person, agency or organization engaged in the selection or evaluation of personnel which makes its selections or evaluations of personnel wholly or partially on the basis of the results of any test shall have available evidence that any test used by such person, agency or organization is in conformance with the requirements of this order.

#### **§ 60-3.11 Disparate treatment.**

The principle of disparate or unequal treatment must be distinguished from the concept of test validation. Disparate treatment, for example, occurs where members of a group protected by Executive Order 11246, as amended, have been denied the same opportunities for hire, transfer or promotion as have been made available to other employees or applicants. Those employees or applicants who can be shown to have been denied equal treatment because of prior discriminatory practices or policies must at least be afforded the same opportunities as had existed for other employees or applicants during the period of discrimination. Thus, no new test or other employee selection standard can be imposed upon an individual or class of individuals protected by Executive Order 11246, as amended, who, but for this prior discrimination, would have been granted the opportunity to qualify under less stringent selection standards previously in force.

#### **§ 60-3.12 Retesting.**

Contractors should provide an opportunity for retesting and reconsideration to earlier "failure" candidates who have availed themselves of more training or experience. In particular, if any applicant or employee during the course of an interview or other employment procedure claims more education or experience, that individual should be retested.

#### **§ 60-3.13 Other selection techniques.**

Selection techniques other than tests, as defined in § 60-3.2, may be improperly used so as to have the effect of discriminating against minority groups or women. Such techniques include, but are not restricted to, unscored or casual interviews, unscored application forms and unscored personal history and background requirements not used uniformly as a basis for qualifying or disqualifying applicants. Where there are data suggesting employment discrimination, the contractor may be called upon to present evidence concerning the validity of his unscored procedures regardless of whether tests are also used, the evidence of validity being of the same types referred to in §§ 60-3.4 and 60-3.5. Data suggesting the possibility of discrimination exists, for example, when there are higher rates of rejection of minority candidates than of nonminority candidates for the same job or group of jobs or when there is an underutilization of minority group personnel among present employees in certain types of jobs. If the contractor is unable or unwilling to perform such validation studies, he has the option of adjusting employment procedures so as to eliminate the conditions suggestive of employment discrimination.

#### **§ 60-3.14 Affirmative action.**

Nothing in this order shall be interpreted as diminishing a contractor's obligation under both title VII of the Civil Rights Act of 1964 and Executive Order 11246, as amended, to take affirmative action to insure that applicants or employees are treated without regard to race, color, religion, sex, or national origin. Specifically, where substantially equally valid tests can be used for a given purpose, the contractor will be expected to use the test or battery of tests which will have the least adverse effect on the employment opportunities of minorities or women. Further, the use of tests which have been validated pursuant to this order does not relieve contractors of their obligation to take affirmative action to afford employment and training opportunities to members of classes protected by Executive Order 11246, as amended.

#### **§ 60-3.15 Recordkeeping.**

Each contractor shall maintain, and submit upon request, such records and documents relating to the nature and use of tests, the validation of tests, and test results, as may be required under the provisions of this chapter and under the orders and directives issued by the Office of Federal Contract Compliance.

**§ 60-3.16 Sanctions.**

(a) The use of tests and other selection techniques by contractors as qualification standards for hire, transfer, promotion, training or retention shall be examined carefully for possible indications of noncompliance with the requirements of Executive Order 11246, as amended.

(b) A determination of noncompliance pursuant to the provisions of this part shall be grounds for the imposition of sanctions under Executive Order 11246, as amended.

**§ 60-3.17 Exemptions.**

(a) Requests for exemptions from this order or any part thereof must be made in writing to the Director, Office of Federal Contract Compliance, Washington, D.C., and must contain a statement of reasons supporting the request. Such request shall be forwarded through and shall contain the endorsement of the head of the contracting agency. Exemption may be granted for good cause.

(b) The requirements of this part shall not apply to any contract when the head of the contracting agency determines that such contract is essential to the national security and that its award without complying with such requirements is necessary to the national security. Upon making such a determination, the agency head will notify the Director, in writing, within 30 days.

**§ 60-3.18 Effect of this part on other rules and regulations.**

(a) All orders, instructions, regulations, and memoranda of the Secretary of Labor, other officials of the Department of Labor and contracting agencies are hereby superseded to the extent that they are inconsistent herewith.

(b) Nothing in this part shall be interpreted to diminish the present contract compliance review and complaint investigation programs.

*Effective date.* This part shall become effective on the date of its publication in the FEDERAL REGISTER (10-2-71).

Signed at Washington, D.C., this 27th day of September 1971.

J. D. HODGSON,  
Secretary of Labor.

# Proposed Rule Making

## Office of Federal Contract Compliance [41 CFR Part 60-3]

### EMPLOYEE TESTING AND OTHER SELECTION PROCEDURES

#### Guidelines for Reporting Validity

Pursuant to Executive Order 11246 (30 FR 12319), as amended by Executive Order 11375 (32 FR 14303), the Department of Labor proposes to amend § 60-3.15 of Title 41, Code of Federal Regulations to read as set forth below. The purpose of this amendment is to clarify Federal contractors' existing obligations to report the validity of tests and other employee selection methods as required by 41 CFR Part 60-3.

Interested parties are invited to file written data, views or arguments concerning this proposal on or before March 16, 1973. Written comments should be addressed to Mr. Philip Davis, Acting Director, Office of Federal Contract Compliance, U.S. Department of Labor, 14th and Constitution Avenue NW., Washington, DC 20210.

#### § 60-3.15 Recordkeeping and reporting.

(a) Each contractor shall maintain, and submit upon request, such records and documents relating to the nature and use of tests, the validation of tests, and test results, as may be required under the provisions of this chapter and under the orders and directives issued by the Office of Federal Contract Compliance.

(b) Reports of validity of tests and other selection methods, where required by this chapter, should contain the following information. Previously written company or consultant reports are acceptable if they are complete in regard to this information.

(1) *Firm or organization and location(s) and date(s) of study.* If study is longitudinal, both testing dates and criterion collection dates should be shown. If study was conducted at several locations, names of cities and States should be shown rather than just plant identification.

(2) *Problem and setting.* Explicit definition of purposes and brief discussion of the situation in which the study was conducted. Include description of existing selection procedures and cutting scores, if any, which were used.

(3) *Job titles and code.* Job title use in company plus corresponding job titles and codes from U.S. Employment Service "Dictionary of Occupational Titles" (third edition) volumes I & II, U.S. Government Printing Office, 1965. Where appropriate DOT codes and titles do not exist, a notation to that effect should be made.

(4) *Job description.* Where necessary, a brief supplement to the job description given in the DOT or, if the job is not described in the DOT, a complete description of the job. If two or more jobs are grouped for validation study, a justification for this grouping should be provided.

(5) *Criteria.* Description of all criteria of job performance considered and/or collected (including a rationale for what were selected as final criteria) and means by which they were observed, recorded, evaluated, and quantified. An indication of the reliability coefficients and how they were established is desirable.

(6) *Sample.* Description of ethnic and sex composition of sample is mandatory. Description of educational levels, entrance levels, length of service, and age is also desirable. Also desirable is a description of how the research sample was selected and how it compares with employees in the job and with current applicants.

(7) *Number of cases.* Description of number of people in the sample, number in subsamples and the use of subsamples.

(8) *Predictors.* Tests should be described by title, form, and publisher. Other predictors, including tailor-made tests; interviewer's ratings; education and experience levels; should be explicitly described.

(9) *Techniques and results.* Methods used in evaluating data must be described. Any statistical adjustments such as corrections for restriction in range or for attenuation must be described. Results of criterion-related studies must be summarized in graphical or statistical form (by ethnic or sex subgroup, if possible) and statements regarding statistical significance of results must be made. Where the statistical technique used categorizes continuous data (such as bi serial correlation, and phi coefficient) the cutoffs used and their bases should

be described. Where more than one predictor and/or more than one criterion is used, all predictor-criterion correlations must be reported regardless of magnitude or direction. Where content validity is offered, a complete explanation of the basis is required (e.g., job analysis, item selection, test reliability, etc.).

(10) *Uses and applications.* Description of the way in which the test is to be used (e.g., as a screening device with a cutoff score, combined with other tests in a battery) and application of the test (e.g., selection, transfer, upgrading). Where cutoff scores are to be used, both the cutoff scores and the way in which they were determined should be described.

(11) *Source data.* It is desirable that a worksheet be attached to the report showing all pertinent information about individual sample members, i.e., test scores, criterion scores, age, sex, experience, minority group status, education.

**NOTE:** Specific identifying information such as name and social security number should NOT be shown.

(12) *Contact person.* The name, mailing address, and telephone number of person currently working for the company or consulting firm who can be contacted for further information about the validation study.

Signed at Washington, D.C., this 24th day of January, 1972.

If any requirement for the commencement of such proceedings is imposed by a State or local authority other than a requirement of the filing of a written and signed statement of the facts upon which the proceeding is based, the proceeding shall be deemed to have been commenced for the purposes of this subsection at the time such statement is sent by registered mail to the appropriate State or local authority.

"(d) In the case of any charge filed by a member of the Commission alleging an unlawful employment practice occurring in a State or political subdivision of a State which has a State or local law prohibiting the practice alleged and establishing or authorizing a State or local authority to grant or seek relief from such practice or to institute criminal proceedings with respect thereto upon receiving notice thereof, the Commission shall, before taking any action with respect to such charge, notify the appropriate State or local officials and, upon request, afford them a reasonable time, but not less than sixty days (provided that such sixty-day period shall be extended to one hundred and twenty days during the first year after the effective day of such State or local law), unless a shorter period is requested, to act under such State or local law to remedy the practice alleged.

"(e) A charge under this section shall be filed within one hundred and eighty days after the alleged unlawful employment practice occurred and notice of the charge (including the date, place and circumstances of the alleged unlawful employment practice) shall be served upon the person against whom such charge is made within ten days thereafter, except that in a case of an unlawful employment practice with respect to which the person aggrieved has initially instituted proceedings with a State or local agency with authority to grant or seek relief from such practice or to institute criminal proceedings with respect thereto upon receiving notice thereof, such charge shall be filed by or on behalf of the person aggrieved within three hundred days after the alleged unlawful employment practice occurred, or within thirty days after receiving notice that the State or local agency has terminated the proceedings under the State or local law, whichever is earlier, and a copy of such charge shall be filed by the Commission with the State or local agency.

Upon timely application, the court may, in its discretion, permit the Commission, or the Attorney General in a case involving a government, governmental agency, or political subdivision, to intervene in such civil action upon certification that the case is of general public importance. Upon request, the court may, in its discretion, stay further proceedings for not more than sixty days pending the termination of State or local proceedings described in subsections (c) or (d) of this section or further efforts of the Commission to obtain voluntary compliance.

Executive Order 11478

EQUAL EMPLOYMENT OPPORTUNITY IN THE FEDERAL GOVERNMENT

It has long been the policy of the United States Government to provide equal opportunity in Federal employment on the basis of merit and fitness and without discrimination because of race, color, religion, sex, or national origin. All recent Presidents have fully supported this policy, and have directed department and agency heads to adopt measures to make it a reality.

As a result, much has been accomplished through positive agency programs to assure equality of opportunity. Additional steps, however, are called for in order to strengthen and assure fully equal employment opportunity in the Federal Government.

NOW, THEREFORE, under and by virtue of the authority vested in me as President of the United States by the Constitution and statutes of the United States, it is ordered as follows:

Section 1. It is the policy of the Government of the United States to provide equal opportunity in Federal employment for all persons, to prohibit discrimination in employment because of race, color, religion, sex, or national origin, and to promote the full realization of equal employment opportunity through a continuing affirmative program in each executive department and agency. This policy of equal opportunity applies to and must be an integral part of every aspect of personnel policy and practice in the employment, development, advancement, and treatment of civilian employees of the Federal Government.

Sec. 2. The head of each executive department and agency shall establish and maintain an affirmative program of equal employment opportunity for all civilian employees and applicants for employment within his jurisdiction in accordance with the policy set forth in section 1. It is the responsibility of each department and agency head, to the maximum extent possible, to provide sufficient resources to administer such a program in a positive and effective manner; assure that recruitment activities reach all sources of job candidates; utilize to the fullest extent the present skills of each employee; provide the maximum feasible opportunity to employees to enhance their skills so they may perform at their highest potential and advance in accordance with their abilities; provide training and advice to managers and supervisors to assure their understanding and implementation of the policy expressed in this Order; assure participation at the local level with other employers, schools, and public or private groups in cooperative efforts to improve community conditions which affect employability; and provide for a system within the department or agency for periodically evaluating the effectiveness with which the policy of this Order is being carried out.

Sec. 3. The Civil Service Commission shall provide leadership and guidance to departments and agencies in the conduct of equal employment opportunity programs for the civilian employees of and applicants for employment within the executive departments and agencies in order to assure that personnel operations in Government departments and agencies carry out the objective of equal opportunity for all persons. The Commission shall review and evaluate agency program operations periodically, obtain such reports from departments and agencies as it deems necessary, and report to the President as appropriate on overall progress. The Commission will consult from time to time with such individuals, groups, or organizations as may be of assistance in improving the Federal program and realizing the objectives of this Order.

Sec. 4. The Civil Service Commission shall provide for the prompt, fair, and impartial consideration of all complaints of discrimination in Federal employment on the basis of race, color, religion, sex, or national origin. Agency systems shall provide access to counseling for employees who feel aggrieved and shall encourage the resolution of employee problems on an informal basis. Procedures for the consideration of complaints shall include at least one impartial review within the executive department or agency and shall provide for appeal to the Civil Service Commission.

Sec. 5. The Civil Service Commission shall issue such regulations, orders, and instructions as it deems necessary and appropriate to carry out this Order and assure that the executive branch of the Government leads the way as an equal opportunity employer, and the head of each executive department and agency shall comply with the regulations, orders, and instructions issued by the Commission under this Order.

Sec. 6. This Order applies (a) to military departments as defined in section 102 of title 5, United States Code, and executive agencies (other than the General Accounting Office) as defined in section 105 of title 5, United States Code, and to the employees thereof (including employees paid from nonappropriated funds), and (b) to those portions of the legislative and judicial branches of the Federal Government and of the Government of the District of Columbia having positions in the competitive service and to the employees in those positions. This Order does not apply to aliens employed outside the limits of the United States.

Sec. 7. Part I of Executive Order No. 11246 of September 24, 1965, and those parts of Executive Order No. 11375 of October 13, 1967, which apply to Federal employment, are hereby superseded.

## NATIONAL PROGRAM FOR MINORITY BUSINESS ENTERPRISE

[1 29,337]

(Issued 10/14/71, 36 F. R. 19967.)

The opportunity for full participation in our free enterprise system by socially and economically disadvantaged persons is essential if we are to obtain social and economic justice for such persons and improve the functioning of our national economy.

The Office of Minority Business Enterprise, established in 1969, greatly facilitated the strengthening and expansion of our minority enterprise program. In order to take full advantage of resources and opportunities in the minority enterprise field, we now must build on this foundation. One important way of improving our efforts is by clarifying the authority of the Secretary of Commerce (a) to implement Federal policy in support of the minority business enterprise program; (b) provide additional technical and management assistance to disadvantaged businesses; (c) to assist in demonstration projects; and (d) to coordinate the participation of all Federal departments and agencies in an increased minority enterprise effort.

NOW THEREFORE, by virtue of the authority vested in me as President of the United States, it is ordered as follows:

**SECTION 1. Functions of the Secretary of Commerce.** (a) The Secretary of Commerce (hereinafter referred to as "the Secretary") shall—

(1) Coordinate as consistent with law the plans, programs, and operations of the Federal Government which affect or may contribute to the establishment, preservation, and strengthening of minority business enterprise.

(2) Promote the mobilization of activities and resources of State and local governments, businesses and trade associations, universities, foundations, professional organizations, and volunteer and other groups towards the growth of minority business enterprises, and facilitate the coordination of the efforts of these groups with those of Federal departments and agencies.

(3) Establish a center for the development, collection, summarization, and dissemination of information that will be helpful to persons and organizations throughout the Nation in undertaking or promoting the establishment and successful operation of minority business enterprise.

(4) Within constraints of law and appropriations therefor, and according to his discretion, provide financial assistance to public and private organizations so that they may render technical and management assistance to minority business enterprises, and defray all or part of the costs of pilot or demonstration projects conducted by public or private agencies or organizations which are designed to overcome the special problems of minority business enterprises or otherwise to further the purposes of this order.

(b) The Secretary, as he deems necessary or appropriate to enable him to better fulfill the responsibilities vested in him by subsection (a), may—

(1) With the participation of other Federal departments and agencies as appropriate, develop comprehensive plans and specific program goals for the minority enterprise program; establish regular performance monitoring and reporting systems to assure that goals are being achieved; and evaluate the impact of Federal support in achieving the objectives established by this order.

(2) Require a coordinated review of all proposed Federal training and technical assistance activities in direct support of the minority enterprise program to assure consistency with program goals and to avoid duplication.

(3) Convene, for purposes of coordination, meetings of the heads of such departments and agencies, or their designees, whose programs and activities may affect or contribute to the purposes of this order.

1 29,337

(4) Convene business leaders, educators, and other representatives of the private sector who are engaged in assisting the development of minority business enterprise or who could contribute to its development, for the purpose of proposing, evaluating and coordinating governmental and private activities in furtherance of the objectives of this order.

(5) Confer with and advise officials of State and local governments.

(6) Provide the managerial and organizational framework through which joint or collaborative undertakings with Federal departments or agencies or private organizations can be planned and implemented.

(7) Recommend appropriate legislative or executive actions.

**SEC. 2. Advisory Council for Minority Enterprise.** (a) The Advisory Council for Minority Enterprise (hereinafter referred to as "the Council"), established by Executive Order No. 11458 of March 5, 1969, shall continue in existence under the terms of this order.

(b) The Council shall be composed of members appointed by the President from among persons, including members of minority groups and representatives from minority business enterprises, who are knowledgeable in this field and who are dedicated to the purposes of this order. The members shall serve for a term of two years and may be reappointed.

(c) The President shall designate one of the members of the Council as the Chairman of the Council.

(d) The Council shall meet at the call of the Secretary.

(e) The Council shall be advisory to the Secretary in which capacity it shall—

(1) Serve as a source of knowledge and information on developments in different fields and segments of our economic and social life which affect minority business enterprise.

(2) Keep abreast of plans, programs, and activities in the public and private sectors which relate to minority business enterprise, and advise the Secretary on any measures to better achieve the objectives of this order.

(3) Consider, and advise the Secretary, and such officials as he may designate, on problems and matters referred to the Council.

(f) For the purposes of Executive Order No. 11007 of February 26, 1962, the Council shall be deemed to have been formed by the Secretary.

(g) Members of the Council shall be entitled to receive travel and expenses, including per diem in lieu of subsistence, as authorized by law (5 U. S. C. 5701-5708) for persons in the Government service employed intermittently.

(h) The Secretary shall arrange for administrative support of the Council to the extent necessary, including use of any gifts or bequests accepted by the Department of Commerce pursuant to law.

**SEC. 3. Responsibilities of Other Federal Departments and Agencies.** (a) The head of each Federal department and agency, or a representative designated by him, when and in the manner so requested by the Secretary, shall furnish information, assistance, and reports to, and shall otherwise cooperate with, the Secretary in the performance of his functions hereunder.

(b) The head of each Federal department or agency shall, when so requested by the Secretary, designate his Under Secretary or such other similar official to have primary and continuing responsibility for the participation and cooperation of that department or agency in matters concerning minority business enterprise.

(c) The officials designated under the preceding paragraph, when so requested, shall review and report to the Secretary upon the policies and programs of the minority business enterprise program, and shall keep the Secretary informed of all proposed budgets, plans and programs of his department or agency affecting minority business enterprise.

(d) The head of each Federal department or agency, or a representative designated by him, shall, to the extent provided under regulations issued by the Secretary after

consultation with the official designated in paragraph (b) above, report to the Secretary on any activity that falls within the scope of the minority business enterprise program as defined herein and in those regulations.

(e) Each Federal department or agency shall, within constraints of law and appropriations therefor, continue all current efforts to foster and promote minority business enterprises and to support the program herein set forth, and shall cooperate with the Secretary of Commerce in increasing the total Federal effort.

**Sec. 4. Reports.** The Secretary shall, not later than 120 days after the close of each fiscal year, submit to the President a full report of his activities hereunder during the previous fiscal year. Further, the Secretary shall, from time to time, submit to the President his recommendations for legislation or other action as he deems desirable to promote the purposes of this order. Each Federal department or agency shall report to the Secretary as hereinabove provided on a timely basis so that the Secretary may consider such reports for his report and recommendations to the President. Each Federal department or agency shall develop and implement systematic data collection processes which will provide to the Office of Minority Business Enterprise Information Center current data helpful in evaluating and promoting the efforts herein described.

**Sec. 5. Policies and Standards.** The Secretary may establish such policies, standards, definitions, criteria, and procedures to govern the implementation, interpretation, and application of this order, and generally perform such functions and take such steps as he may deem to be necessary or appropriate to achieve the purposes and carry out the provisions hereof.

**Sec. 6. Definitions.** For purposes of this order, the following definitions shall apply:

(a) "Minority business enterprise" means a business enterprise that is owned or controlled by one or more socially or economically disadvantaged persons. Such disadvantage may arise from cultural, racial, chronic economic circumstances or background or other similar cause. Such persons include, but are not limited to, Negroes, Puerto Ricans, Spanish-speaking Americans, American Indians, Eskimos, and Aleuts.

(b) "State" means the States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the territories and possessions of the United States, and the Trust Territory of the Pacific Islands.

**Sec. 7. Construction.** Nothing in this order shall be construed as subjecting any function vested in, or assigned pursuant to law to, any Federal department or agency or head thereof to the authority of any other agency or office exclusively, or as abrogating or restricting any such function in any manner.

**Sec. 8. Prior Executive Order.** Executive Order No. 11458 of March 5, 1969, is hereby superseded.

# California Code of Fair Practices

## ARTICLE I. Policy Declaration

Equal opportunity for all citizens is the policy of the State of California in all of its activities. Employees shall rigorously enforce that policy. They shall take any or all affirmative action necessary to assure equality of opportunity in the internal affairs of state government and in its relations with the general public, including correction of any past inequity which may tend to deny equal opportunity to all.

## ARTICLE II. Personnel Policies of State Agencies

State officials and supervisory employees shall recruit, appoint, assign, train, evaluate, and promote state personnel on the basis of merit and fitness, without regard to race, sex, color, religion, national origin, or ancestry. All state agencies shall promulgate clear, written directives to carry out this policy and to guarantee equal employment opportunities at all levels of state government. They shall regularly review their personnel practices to assure compliance. Where existing staffing patterns reflect less than complete adherence, they shall determine the cause, and if necessary, initiate special recruitment programs to correct the situation. They shall conduct continuing orientation and training programs with emphasis on human relations and fair employment practices. The State Personnel Board shall take positive steps to insure that the entire civil service process is free from conscious, unconscious, or inadvertent bias of any kind.

## ARTICLE III. Services and Facilities

All services of every state agency shall be performed without discrimination based on race, sex, color, religion, national origin, or ancestry. No state facility shall be used in furtherance of any discriminatory practice, nor shall any state agency become a party to any agreement, arrangement, or plan which has the effect of sanctioning such practices. Each state agency shall critically analyze all of its operations to ascertain possible instances of noncompliance with this policy, and shall instigate sustained, comprehensive affirmative action programs to remedy any defects found to exist.

## ARTICLE IV. Contracts and Subcontracts

Every state contract and subcontract for public works or for goods or services shall contain a clause prohibiting discriminatory employment practices by contractors and subcontractors based on race, sex, color, religion, national origin, or ancestry. The nondiscrimination clause shall include a provision requiring state contractors and subcontractors to give written notice of their commitments under this clause to any labor union with which they have a collective bargaining or other agreement and to undertake such affirmative action as will fully implement the purposes of this Code of Fair Practices. Such contractual provisions shall be fully and effectively enforced, and any breach of them shall be regarded as a material breach of the contract. Annually, each state agency shall submit to the Governor certification of compliance with these provisions by all contractors and subcontractors.

## ARTICLE V. State Employment Services

All state agencies, including educational institutions, which provide employment referral or placement services to public or private employers shall accept job orders only on a nondiscriminatory basis, except where such services are clearly and explicitly for the purpose of correcting an imbalance. They shall reject any job order designed to exclude any member of a minority group because of race, sex, color, religion, national origin, or ancestry. They shall advise the Fair Employment Practice Commission of employers or unions known to persist in restric-

tive hiring practices. They shall assist employers and unions seeking to broaden their recruitment programs to include qualified applicants of various racial, religious, and ethnic backgrounds. In addition, the Department of Human Resources Development shall fully utilize its knowledge of the labor market, and contracts with job applicants, employers, and unions for promotion of equal employment opportunities.

## ARTICLE VI. State Fair Employment Practice Commission

All state agencies shall cooperate fully with the Fair Employment Practice Commission on its enforcement and educational programs. They shall comply with its requests for information concerning practices found to be, or alleged to be, inconsistent with the state policy of nondiscrimination, and they shall follow its recommendations for giving effect to that policy. In addition to discharging its enforcement duties, the Commission shall place emphasis on programs of affirmative action in the field of human rights.

## ARTICLE VII. Education, Counseling, and Training Programs

All educational, counseling, and vocational guidance programs and all apprenticeship and on-the-job training programs of state agencies, or in which state agencies participate, shall be open to all qualified persons, without regard to race, sex, color, religion, national origin, or ancestry. Such programs shall be conducted to encourage the fullest development of the interests, aptitudes, skills, and capacities of all students and trainees, with special attention to the problems of culturally deprived, educationally handicapped, or economically disadvantaged persons. Expansion of training opportunities under these programs shall also be encouraged with a view toward involving larger numbers of participants from these segments of the labor force where the need for upgrading levels of skill is greatest.

## ARTICLE VIII. Private Educational Institutions

All private educational institutions licensed or chartered by the State, including professional, business, and vocational training schools, shall be required to show compliance with the state policy of nondiscrimination in their student admissions and other practices as a condition of continued participation in any state program or eligibility to receive any form of state assistance.

## ARTICLE IX. Licensing and Regulatory Agencies

State agencies shall not consider any individual's race, sex, color, religion, national origin, or ancestry in granting, denying or revoking a license or charter; nor shall any person, corporation, or business firm which is licensed or regulated by the State discriminate against or segregate any person on such grounds. All businesses licensed or regulated by the State shall operate on a nondiscriminatory basis, according equal treatment and access to their services to all persons. Any licensee or charter holder who fails to comply with this policy shall be subject to such disciplinary action as is consistent with the legal authority and rules and regulations of the appropriate licensing or regulatory agency.

## ARTICLE X. Housing Accommodations

No person, corporation, or firm licensed or chartered by the State to engage in the business of selling, leasing, renting, financing, building, or developing housing accommodations shall discriminate against any prospective buyer, lessee, or tenant because of race, sex, color, religion, national origin, or ancestry; nor shall any licensee or charter holder solicit, induce or promote the sale, lease or the listing for sale or lease, of residential property on the ground that a person, female or male, of minority racial, religious or

ethnic background has or has not established or will or will not establish residence in the neighborhood, nor shall any licensee or charter holder knowingly engage in any activities deliberately designed to promote or perpetuate neighborhood segregation. All such licensees or charter holders shall cooperate fully with the State Fair Employment Practice Commission in its educational and promotional activities designed to eliminate unlawful discrimination in housing accommodations. Through its policy declarations and staff services, the State Board of Education shall assist local school districts in eliminating racial segregation and relieving the social, economic and educational deficiencies resulting from segregation in the State's public schools. The Board shall provide incentive and encourage the recruitment of quality administrators and teachers who will accept employment and private residence in those school districts where quality education is most critically needed. The Board shall also pursue programs promoting fair employment practices for certificated teachers and approving textbooks which accurately and realistically portray the contributions of minority groups to the history and culture of this state and nation.

## ARTICLE XII. State Financial Assistance

Race, sex, color, religion, national origin, or ancestry shall not be considered in administering state programs involving the distribution of funds to qualified recipients for benefits authorized by law; nor shall state agencies provide grants, loans, or other financial assistance to public agencies, private institutions or organizations which engage in or promote discriminatory practices.

Such reports shall include both internal programs and external relations with the public or with other state agencies.

Copies of this Code of Fair Practices shall be distributed to all state officials, employees, and the governing boards of all political subdivisions of the state. The code shall be posted in conspicuous locations in all state facilities.

###### § 60-40.3 Information exempt from compulsory disclosure and which may be withheld.

(a) The following documents or parts thereof are exempt from mandatory disclosure by the OFCC and the compliance agencies, and should be withheld if it is determined that the requested inspection or copying does not further the public interest and might impede the discharge of any of the functions of the OFCC or the Compliance Agencies.

(1) Those portions of affirmative action plans such as goals and timetables which would be confidential commercial or financial information because they indicate, and only to the extent that they indicate, that a contractor plans major shifts or changes in his personnel requirements and he has not made this information available to the public. A determination by an agency to withhold this type of information should be made only after receiving verification and a satisfactory explanation from the contractor that the information should be withheld.

(2) Those portions of affirmative action plans which constitute information on staffing patterns and pay scales but only to the extent that their release would injure the business or financial position of the contractor, would constitute a release of confidential financial information of an employee or would constitute an unwarranted invasion of the privacy of an employee.

(3) The names of individual complainants.

(4) The assignments to particular contractors of named compliance officers if such disclosure would subject the named compliance officers to undue harassment or would affect the efficient enforcement of the Executive order.

(5) Compliance investigation files including the standard compliance review reports and related documents, during the course of the review to which they pertain or while enforcement action against the contractor is in progress or contemplated within a reasonable time. Thereafter, these reports and related files shall not be disclosed only to the extent that information contained therein constitutes trade secrets and con-

## RULES AND REGULATIONS

Identical commercial or financial information, inter-agency or intra-agency memoranda or letters which would not be available by law to a private party in litigation with the agency, personnel and medical files and similar files the disclosure of which would constitute a clearly unwarranted invasion of personal privacy, data which would be exempt from mandatory disclosure pursuant to the "informants privilege" or such information the disclosure of which is prohibited by statute.

(c) Copies of preemployment selection tests used by contractors.

(d) Other records may be withheld consistent with the Freedom of Information Act on a case-by-case basis, with the prior approval of the Director, OFCC.

**§ 60-40.4 Information disclosure of which is prohibited by law.**

The Standard Form 100 (EEO-1) which is submitted by contractors to the OFCC, a compliance agency or a Joint Reporting Committee servicing both the OFCC and the EEOC shall be disclosed pending further instructions from the Director, OFCC. The statutory prohibition on disclosure set forth in Section 709 (e) of the Civil Rights Act of 1964 is limited by the terms of that section to information obtained pursuant to the authority of title VII of that Act and its disclosure by employees of the EEOC.

**Subpart B—Procedures for Disclosure**

**§ 60-40.5 Applicability of procedures.**

Requests for the inspection and copy of information from records in the custody of the OFCC or the Compliance Agencies which are identifiable and

available under the provisions of Subpart A of this part shall be made and acted upon as provided in the following sections of this subpart. Officers and employees of the OFCC and the Compliance Agencies are authorized by the Director, OFCC to continue to furnish to the public, informally and without compliance with these procedures, information and copies from its records which prior to the enactment of the Freedom of Information Act (5 U.S.C. 552) were customarily furnished in the regular performance of their duties.

**§ 60-40.6 To whom to direct requests.**

A request for contract compliance records or information shall be directed to the Director of Contract Compliance of the agency designated as the appropriate Compliance Agency for the industry to which the records pertain, pursuant to 41 CFR 60-1.3(d). If the person making the request does not know in which Compliance Agency the record is located, he may direct his request to the Director, Office of Federal Contract Compliance, Department of Labor, 14th and Constitution Avenue NW., Washington, DC 20510, for appropriate handling.

**§ 60-40.7 Partial disclosure.**

If a requested record contains some materials which are protected from disclosure and other materials which are not so protected, identifying details or protected matters shall be deleted wherever analysis indicates that such deletions are feasible. Whenever such deletions are made, the remainder of the records may be disclosed.

**§ 60-40.8 Facilities and procedures for disclosure.**

(a) Procedural matters such as where the information may be inspected, forms of requests, time for reply to requests, forms of denials, appeals from denials, and fees for special services and copying services, shall be controlled by the general regulations of the custodial agency except to the extent modified herein.

(b) Procedures relating to the availability of records in the custody of the OFCC shall be governed by the Department of Labor regulations, 29 CFR 70.25 to 29 CFR 70.64.

(c) Copies of all requests for disclosure of information made directly to the Compliance Agencies shall be submitted to the OFCC within 5 calendar days of receipt. The compliance agencies shall thereafter allow 5 working days from the time the request is submitted to the OFCC for comment by the OFCC. Delay by the OFCC may be waived at the request of the compliance agency.

(d) The compliance agencies shall furnish the OFCC with copies of all initial actions by the agencies granting or denying a request for information. The OFCC shall be given an opportunity by the Compliance Agencies to consult on all appeals from initial decisions denying requests for information.

Signed at Washington, D.C., this 23rd day of January, 1973.

J. D. HODGSON,  
Secretary of Labor.

### III High Schools, Colleges, and Universities are Available

The educational institution that faces the challenge of training an adequate number of minority and female graduates must learn how to meet the needs of the employer.

## MINORITY RELATIONS OFFICE IN THE PLACEMENT CENTER<sup>1</sup>

A centralized Placement Center is responsible for assisting students in career planning and in obtaining part-time or career employment. At universities, four-year colleges, and junior colleges, it is believed that all students and employers are best served only when graduates have been adequately prepared for the future. Therefore, progressive educational institutions have added the Minority Relations Office to enhance the opportunities of a group that has had the least representation in the past.

The Minority Relations Office is responsible for broadening the awareness throughout the community of placement services available to all minorities, by working with those responsible for the complete education of the minority student.

A number of departments and organizations are playing an important part in the placement wheel. There are departments within colleges: (1) Educational Opportunities Program (EOP), (2) Ethnic Studies, and (3) Financial Aid; and groups outside the colleges: (4) graduate schools, (5) junior colleges, (6) high schools, (7) industry, (8) federal organizations, and (9) community organizations.

1. EOP is usually the agent that has high school minority students admitted to and sustained in college. EOP provides the educational support; the Placement Center provides part-time jobs, internships in industry and education, and career counseling, all of which are necessary for the retention of minority students.
2. Ethnic Studies provides ethnic background, instills awareness and appreciation, and teaches basic communication skills. The Placement Center helps by providing teaching assistantships and interviews with educational institutions. Chicanos, blacks, and American Indians need to be exposed to the world outside of their own, and the Placement Center is their vehicle of introduction.
3. Financial Aid provides grants, financial aid, work-study, and scholarships. The Placement Center coordinates scholarships, internships, and work-study with industry and Financial Aid.
4. Graduate schools are openly recruiting minorities for their programs. This is happening because of affirmative action programs. The Placement Center provides information to minority students about fellowships, teaching assistantships, graduate school applications, and other opportunities throughout the nation.
5. Minority students in the junior colleges are sent to the Placement Center at four-year colleges for counseling. The Placement Centers maintain a list that is used to inform industry about future candidates, and candidates are informed about internships and scholarships.
6. EOP recruits minority high-school students from its service area. When the Placement Center finds a promising minority student, it informs industry, scholarship committees, and community organizations. The Placement Center coordinates career counseling with high-school counselors.

---

<sup>1</sup>The activities in the Minority Relations Office of the Placement Center are shown in the following example of a monthly activity report.

7. Industry, through the Placement Center, provides on-campus interviews for graduating seniors, internships, cooperative education for juniors and seniors, and part-time summer employment for all students. The Placement Center provides industry with students and facilities needed for recruiting. Employers can recruit minority students openly as a result of the California Code of Fair Practices, Article V, which states:

*"All state agencies, including educational institutions, which provide employment referral or placement services to public or private employers shall accept job orders only on a nondiscriminatory basis, except where such services are clearly and explicitly for the purpose of correcting an imbalance. They shall reject any job order designed to exclude any member of a minority group..."*

8. Federal organizations recruit students for federal programs. The Placement Center provides the federal organizations with data about minority students.
9. Community organizations refer students for career counseling to EOP, the Placement Center, and Ethnic Studies. EOP provides admission information, and the Placement Center provides information about other opportunities. LULAC, GI Forum, SER, and others refer students in need of help to the above organizations.

From: Samuel M. Mendoza

Subject: Monthly Activity Report

- a. At this time, we have 296 minority students registered. These students are actively using the Placement Center.

- b. Companies and agencies reporting hiring minorities from CSUF:

THE CALIFORNIA STATE UNIVERSITY AND COLLEGES

### Example of Monthly Activity Report (Cont)

- e. North American Rockwell has started an internship program for minorities in engineering. Presently, two are in the program: Harold Whittle and Gregory Spence. These students work 20 hours a week and attend school full time.
- f. North American Rockwell has awarded scholarships of \$750.00 to two of our minority students: Enrique Martinez and Gabriel Grigolla.
- g. At the present time, 60 companies with minority personnel representatives have contacted us about future recruitment.
- h. The Counseling Department in B-102 has referred 18 students for advice and guidance.
- i. The Women's Center is also referring some of their students for career counseling. We have spoken to 15 women.
- j. We participated in an EOP workshop at CSUF on December 29. Our part ran for 2 hours and careers and graduate school information were included. Most people present felt that students needed information from Placement and Counseling that would enable them to arrange their programs over a four-year period.
- k. I will participate January 9, 1973, in a panel discussion entitled, "Minority and Women Placement," for the Orange County Equal Opportunity Employers' Association. The panel will convene at the Disneyland Hotel.
- l. We are sending out a questionnaire to companies concerning summer employment. The purpose is to help us determine what the job market will be for minorities.

## CHICANO PLACEMENT OFFICERS IN PLACEMENT CENTERS

A significant number of Chicano students are enrolled in the following institutions, which include Eastern schools that are especially concerned with minority problems. It is expected that Chicano placement officers eventually will be installed in each Placement Center. As the officers are designated, they will be added to the list.

## **V Chicano Government Representatives are Increasing**

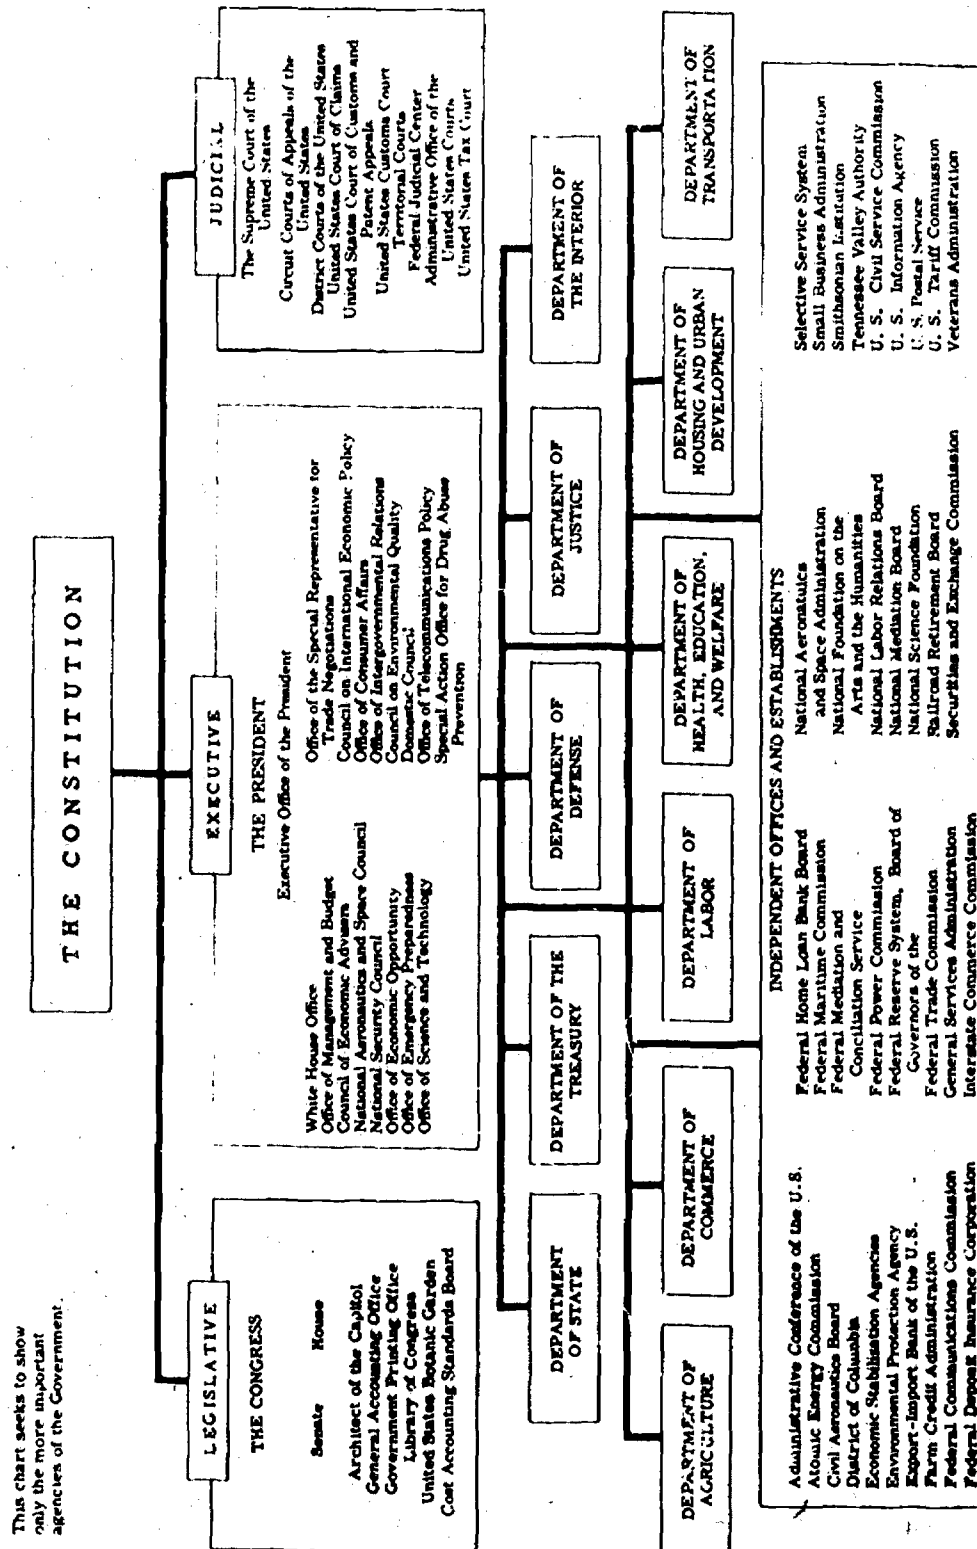

If the Chicano wants government to be more responsive to his needs, he must make sure his voice is heard by government representatives.

## A GROWING VOICE THROUGH REPRESENTATION

Chicano representatives in government are giving the Chicano a greater voice in political decisions affecting his life. The number of Chicano representatives is increasing in all three branches of government, at both the federal and state levels. <sup>1</sup>Because of the time constraint, it was not possible to compile a complete list of organizations, chapters, and names of key personnel. Additional information will be included when the book is revised.

<sup>1</sup>Chicano Studies are structured to help Chicanos overcome the failure of educational institutions to fully develop their potential. The U.S. Commission on Civil Rights recently released these findings: teachers praise Anglo students 36 percent more often than they commend Chicano students; teachers use 40 percent more of Anglo students' ideas than those of Chicano pupils; teachers "respond positively" 40 percent more often to Anglo students than to Chicano pupils.
